Distributorship Franchising Agency Community And:

Commercial Agency, Franchise and Distribution Contracts Martijn W. Hesselink, Jacobien W. Rutgers, Odavia Bueno Diaz, Manolo Scotton, Muriel Veldman, 2009-04-27 The rules presented in this volume of Principles of European Law deal with commercial agency franchise and distribution contracts and with other contracts where one party uses the other party's skill and efforts to bring its products to the market. Although these Principles are not directly applicable to other long-term commercial contracts, some of the Articles may be applied to such contracts by way of analogy where appropriate. The economic function of all three contracts is that they are instrumental in bringing products to the market. They are so-called vertical agreements as they are agreements between economic actors on different levels in the production and distribution chain. Obviously, the economic importance of these contracts is enormous since they form the connection between producers and retailers who sell the products to consumers and other final users. There are only very few economic sectors where producers regularly sell their products directly to final consumer users. Goodwill compensation after the ending of a distribution contract, the moment at which the agent's commission is due, the franchisor's obligation to maintain the good reputation of the network are but a few examples of issues where specific rules are needed in order to give legal practice some guidance and to provide practitioners with a reasonable degree of legal certainty.

International Agency and Distribution Agreements: Analysis and forms Thomas F. Clasen, 1990 *International Commercial Agency and Distribution Agreements* Cristelle Albaric, Marianne Dickstein, 2017-03-06 In this enriched new edition of a proven indispensable practical guide to the drafting and negotiating of agency distribution and franchising agreements, the contributors have all updated their country reports with recent cases and commentary and an abundance of new sample clauses and other practical features. In addition, four major jurisdictions—Brazil, England, Japan, and the United States—have been added, bringing the total number of country reports to nineteen. The first edition is well known among commercial law practitioners as the preeminent hands-on guide to drafting effective distribution agreements tailored specifically to countries in which foreign direct investment is a major component of the economy. Local experts provide detailed information on specific applicable law, major current case law, drafting guidance with specific clauses, and official English versions of relevant primary material. Case law summaries clearly expose the issues from which disputes arise and the financial consequences of those disputes, and the practical discussion includes sample clauses designed to anticipate those issues and avoid the pitfalls to which they often lead. The enormous day-to-day usefulness of this book will be self-evident to corporate counsel and other lawyers negotiating international commercial distribution agreements. Legal scholars, as well, will welcome the book's comparative study of applicable law on commercial contracts in a wide variety of national jurisdictions.

Agency in Private International Law H.L.E. Verhagen,2023-07-03 The Hague Agency Convention is of great importance for every lawyer involved or interested in international business and finance Its provisions become relevant whenever one is dealing with agency relationships in the broadest sense in an international context Its scope is not confined to the traditional commercial agency relationships between principals and their agents but extends to many other situations where agency takes place both directly and indirectly The rules of the Convention are applied to find the laws governing both the internal and external agency relationships in all areas of international business and finance The Convention has currently been ratified by four states the Netherlands France Portugal and Argentina but several countries have enacted legislation inspired by it for the interpretation of which the Convention may have significance Moreover now that it has entered into force in 1992 it is not unlikely that it will be ratified by more states Agency in Private International Law presents a detailed analysis of the Convention with references to the laws of various jurisdictions References to legal systems other than that of the Netherlands have been checked by local lawyers
