## **Divided Kingdom:**

**The Divided Kingdom of Israel and Judah C. 975--536 BC** Betty Banaszak, 2012-12-24 The period of Biblical history known as the Divided Kingdom or the period of the Kings and the Prophets refers to the time when the nation of Israel broke into two rival kingdoms Israel in the north and Judah in the south each governed by its own succession of kings During this period of monarchical rule God sent many prophets with the purpose of keeping the government of His covenant people in line with His commandments and righteous laws Besides the prophets which were anointed to address particular situations there was an unbroken line of written prophets from Joel chronologically to Daniel who were sent to deliver words of judgment warning instruction and hope for the future In order to appreciate the intricate fabric of this complex period one has to weave together three books of history I and II Kings and II Chronicles and all the prophets from Isaiah to Zephaniah Kingship ended under Nebuchadnezzar's Babylonian dominion when the last king of Judah was taken captive to Babylon The entire nation's captivity officially ended in 536 BC when Cyrus the first Persian emperor released the captives to return to their homelands and rebuild what Babylon had destroyed As we study the accounts of Biblical and secular history we discover the magnitude of the hand of God operating throughout the heathen world and more intimately in the midst of Israel's many trials and aberrations Our faith is strengthened as we recognize that it is the hand of the same God who controls our current world affairs in the global events of these days The intent of this book is to guide the student as well as the most dedicated pastors and teachers through this dynamic period in simplicity and historical accuracy and in so doing reinforce our faith as we face the mounting turbulence in our own generation *2030 - The Sixth Thousandth Year* Paul R. Finch, 2023-11-10 From the opening chapter we read It is time to rewrite ancient history The chronology of ancient history as presented by modern secular scholarship is totally and emphatically bogus The entire subject of biblical chronology as well as all ancient world chronology is herein challenged as never before Now for the first time Mr Finch corrects the errors of past chronological studies With this important research it is now possible to finally create a chronology of the ancient world that at long last fits all the pieces perfectly together This timely study puts biblical chronology together in a new light and is conclusively a breakthrough investigation that cannot be ignored This exciting research is a must read for all biblical students henceforward [The Word Among Us](#) Terry L. Burden, 2022-07-19 *The Word Among Us* Theologies of the Hebrew Bible Old Testament is a topical approach to the study of the Judeo Christian Bible Each topic is a survey of the many theological themes we encounter in the Biblical narrative such as the theology of Biblical History Torah Moses Election Covenant Land Kingship Prophecy and many more Special topics include The Theology of the Fall of Israel Theology of Messianic Expectations and The Theology of Israel Of particular interest is The Theology of Story which introduces the story oriented literary discipline At the center of Biblical theology is the tragic fall of the Northern Kingdom of Israel in 722 B C E and the Southern Kingdom of Judah in 586 B C E From these periods many of the theological motifs such as covenant law and

prophecy arise to address and to explain these tragedies in Israelite history The primary purpose of the present study is a better understanding of the theological function of these motifs or themes A theological function is the power of a Biblical narrative to constitute and to restore the Israelite people who were struggling to survive the late period of Biblical history A special feature of my study are the several promptings from Biblical topics of the many discussions that relate to the New Testament and Christian teachings My approach to the study of the Hebrew Bible Old Testament is unique among other introductions to the Hebrew Bible This book therefore is very important to both the Jewish and the Christian reader

**Ancient Egyptian Roots of Christianity, Expanded 2nd Edition** Moustafa Gadalla,2016-12-02 Egyptian roots of Christianity both historically and spiritually This book reveals the Ancient Egyptian roots of Christianity both historically and spiritually This Expanded Version of the book consists of three parts to coincide with the terms of trinity The first part demonstrates that the major biblical ancestors of the biblical Jesus are all Ancient Egyptian prominent characters The second part demonstrates that the accounts of the historical Jesus are based entirely on the life and death of the Egyptian Pharaoh Twt Tut Ankh Amen The third part demonstrates that the Jesus of Faith and the Christian tenets are all Egyptian in origin such as the essence of the teachings message the creation of the universe and man according to the Book of Genesis as well as the religious holidays The very thing that is now called the Christian religion was already in existence in Ancient Egypt long before the adoption of the New Testament The British Egyptologist Sir E A Wallis Budge wrote in his book *The Gods of the Egyptians*

1969 The new religion Christianity which was preached there by St Mark and his immediate followers in all essentials so closely resembled that which was the outcome of the worship of Osiris Isis and Horus The similarities noted by Budge and everyone who has compared the Egyptian Osiris Isis Horus allegory to the Gospel story are striking Both accounts are practically the same e g the supernatural conception the divine birth the struggles against the enemy in the wilderness and the resurrection from the dead to eternal life The main difference between the two versions is that the Gospel tale is considered historical and the Osiris Isis Horus cycle is an allegory The spiritual message of the Ancient Egyptian Osiris Isis Horus allegory and the Christian revelation is exactly the same The British scholar A N Wilson pointed out in his book Jesus The Jesus of History and the Christ of Faith are two separate beings with very different stories It is difficult enough to reconstruct the first and in the attempt we are likely to do irreparable harm to the second This book will demonstrate that the Jesus of History the Jesus of Faith and the tenets of Christianity are all Ancient Egyptian This will be done without causing any irreparable harm as per A N Wilson s concern for two main reasons Firstly the truth must be told Secondly explaining Christian tenets via their original Ancient Egyptian contexts will enhance the idealism of Christianity This Expanded Version of the book consists of three parts to coincide with the terms of trinity the Three that are Two that are One The first part demonstrates that the major biblical ancestors of the biblical Jesus are all Ancient Egyptian prominent individuals The second part demonstrates that the accounts of the historical Jesus are based entirely on the life and death of the Egyptian Pharaoh Twt Tut Ankh Amen The third part demonstrates that the Jesus of Faith and the Christian tenets are all Egyptian in origin such as the essence of the teachings message the creation of the universe and man according to the Book of Genesis as well as the religious holidays There is an undeniable irony and a profound deep undeniable truth in Hosea s prophetic saying Out of Egypt have I called my Son A deep irony indeed Let us open our minds and review the available evidence For the truth is a composite of different and complementary pieces of a puzzle Let us put the pieces in the right location time and order

**The Reconstructed Chronology of the Divided Kingdom** M. Christine Tetley,2004-06-30 The common response to any attempt to read the chronological notations associated with the kings of Israel and Judah in the time of the divided monarchy is perhaps a shrug of the shoulders or a statement to the effect that the problem is insoluble Not only are the apparently contradictory or confusing notations of the MT a consideration but the evidence of the other major versions seriously complicates any such undertaking In the twentieth century Edwin R Thiele attempted to reconcile and wrangle all of the numbers into a semblance of order with results that were far from convincing to his readers Now Christine Tetley has attacked this knottiest of problems with fresh vigor and assayed a new solution There is no doubt that this book will be controversial nevertheless it will be required reading for anyone who wishes to pin archaeological and historical data within the framework of an absolute chronology
