BOOK JACKET *The Political Work of Northern Women Writers and the Civil War, 1850-1872* Lyde Cullen Sizer, 2000 *Political Work of Northern Women Writers and the Civil War 1850 1872* Lincoln & Davis Brian R. Dirck, 2001

As Savior of the Union and the Great Emancipator Abraham Lincoln has been lauded for his courage wisdom and moral fiber Yet Frederick Douglass's assertion that Lincoln was the white man's president has been used by some detractors as proof of his fundamentally racist character Viewed objectively Lincoln was a white man's president by virtue of his own whiteness and that of the culture that produced him Until now however historians have rarely explored just what this means for our understanding of the man and his actions Writing at the vanguard of whiteness studies Brian Dirck considers Lincoln as a typical American white man of his time who bore the multiple assumptions prejudices and limitations of his own racial identity He shows us a Lincoln less willing or able to transcend those limitations than his more heroic persona might suggest but also contends that Lincoln's understanding and approach to racial bigotry was more enlightened than those of most of his white contemporaries Blazing a new trail in Lincoln studies Dirck reveals that Lincoln was well aware of and sympathetic to white fears especially that of descending into white trash a notion that gnawed at a man eager to distance himself from his own coarse origins But he also shows that after Lincoln crossed the Rubicon of black emancipation he continued to grow beyond such cultural constraints as seen in his seven recorded encounters with nonwhites Dirck probes more deeply into what white meant in Lincoln's time and what it meant to Lincoln himself and from this perspective he proposes a new understanding of how Lincoln viewed whiteness as a distinct racial category that influenced his policies As Dirck ably demonstrates Lincoln rose far enough above the confines of his culture to accomplish deeds still worthy of our admiration and he calls for a more critically informed admiration of Lincoln that allows us to celebrate his considerable accomplishments while simultaneously recognizing his limitations When Douglass observed that Lincoln was the white man's president he may not have intended it as a serious analytical category But as Dirck shows perhaps we should do so the better to understand not just the Lincoln presidency but the man himself

Step Forth Like Men Natasha A. Larimer, 2003 The Presidency of Abraham Lincoln Phillip Shaw Paludan, 1994 In this study Paludan offers us Lincoln in the round a complex even contradictory personality who found greatness without seeking it and who felt deeply troubled about what he perceived as his failings as a President and person *The Register of the Kentucky Historical Society* Kentucky Historical Society, 2003

Patriot Fires Melinda Lawson, 2002 The Civil War is often credited with giving birth to the modern American state The demands of warfare led to the centralization of business and industry and to an unprecedented expansion of federal power But the Civil War did more than that as Melinda Lawson shows it brought about a change in American national identity

redefining the relationship between the individual and the government Though much has been written about the Civil War and the making of the political and economic American nation this is the first comprehensive study of the role that the war played in the shaping of the cultural and ideological nation state In *Patriot Fires* Lawson explains how when threatened by the rebellious South the North came together as a nation and mobilized its populace for war With no formal government office to rally citizens the job of defining the war in patriotic terms fell largely to private individuals or associations each with their own motives and methods Lawson explores how these interpreters of the war helped instill in Americans a new understanding of loyalty to country Through efforts such as sanitary fairs to promote the welfare of soldiers the war bond drives of Jay Cooke and the establishment of Union Leagues Northerners cultivated a new sense of patriotism rooted not just in the subjective American idea but in existing religious political and cultural values Moreover Democrats and Republicans Abolitionists and Abraham Lincoln created their own understandings of American patriotism and national identity raising debates over the meaning of the American idea to new heights Examining speeches pamphlets pageants sermons and assemblies Lawson shows how citizens and organizations constructed a new kind of nationalism based on a nation of Americans rather than a union of states a European styled nationalism grounded in history and tradition and celebrating the preeminence of the nation state Original in its insights and innovative in its approach *Patriot Fires* is an impressive work of cultural and intellectual history As America engages in new conflicts around the globe Lawson shows us that issues addressed by nation builders of the nineteenth century are relevant once again as the meaning of patriotism continues to be explored *The Confederacy* Macmillan Publishing,1998 This unique collection of articles covers the history battles government society people and even the dreams and aspirations of the states that declared secession from the United States

Liberty, Equality, Power John Murrin,2002-05-20 *Liberty Equality Power A History of the American People Concise Edition* provides students with a clear understanding of how power is gained lost and used in both public and private life This concise version retains the narrative clarity unparalleled coverage and thematic unity of the larger text while fashioning an unmatched integration of social and cultural history into a political story The concise version s emphasis on clarity and brevity provides a leaner and clearer presentation for introductory American history students It retains the same strong chronological and thematic framework as the bigger text but offers a more manageable option for instructors concerned about too much material and too little time **"Not of Arms, But of Argument"** Brett R. Barker,2001 *The Journal of Mississippi History* ,2008 Includes section Book reviews
