## **Divine Relativity A Social Conception:**

**The Divine Relativity** Charles Hartshorne, 1948-01-01 Charles Hartshorne has set himself the task of formulating the idea of deity to preserve perhaps even increase its religious value while yet avoiding the contradictions which seem inseparable from the idea of customarily defined This is a brilliant attempt to redefine problems that have long challenged the Western world in its search for understanding both God and man The compact closely reasoned book employs a skill in logic reminiscent of scholasticism at its best to refute traditional notions scholastic and otherwise of divine absoluteness and to expound a conception of God which is both free of contradiction and religiously adequate The position taken is described by Professor Hartshorne as surrelativism or panentheism and these terms indicate the two major emphases of the volume He who follows its precise logic with the alertness it demands will have a clarifying and enriching experience S Paul Schiling Journal of Bible and Religion In what respects is God absolute and in what respects relative Or is it meaningless to say that he is both In a rigorously analytical study Professor Hartshorne explains why he thinks both statements are necessary One comes from this book with new confidence in the ability of philosophy to attack religious problems and through careful analysis to reveal what as alone conceivable must be true J S Bixler Review of Religion Hartshorne s work is a major achievement in religious thought because it strives to clear away errors that have been insuperable obstacles to religious search Henry N Wieman The Philosophical Review This book is not merely theoretical as might be supposed it has its practical application to the larger social issues of our time including the problem of democracy Jay William Hudson Christian Register

**The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

God's Being Towards Fellowship Justin Stratis, 2019-07-11 Justin Stratis explores the meaning of the biblical phrase God is love through an examination of two quintessentially modern Protestant theologians Friedrich Schleiermacher and Karl Barth This book contains both a detailed engagement with Schleiermacher s untranslated lectures on Dialektik and their relation to his more well known work as well as a new assessment of Barth s doctrine of God which both respects his radical innovations and yet places him within the stream of traditional catholic trinitarianism After

considering the complexities of theological predication and comparing several classical and contemporary approaches to the implication of love Stratis presents and ultimately commends the distinct approaches of Schleiermacher and Barth for their tendency to treat divine love as a conclusion to the doctrine of God rather than as a conceptual starting point In contrast to many contemporary approaches Stratis concludes with the suggestion that God's love is best conceived as his being toward fellowship rather than as the eminent instance of loving fellowship understood according to human experiences of love

**Charles Hartshorne's Concept of God** S. Sia, 2013-03-14 Charles Hartshorne's considerable writings have been influential in contemporary religious and philosophical thought Not only is he regarded as the leading living representative of process thought as well as a much respected interpreter of Whitehead but he has also established himself as an original and creative thinker in his own right The literature on his philosophy has been rapidly increasing His thought and influence have also been the subject of a number of conferences and gatherings of scholars One of Hartshorne's most notable contributions to contemporary philosophy and theology is his concept of God In his writings he has set out to formulate the idea of deity so as to preserve perhaps increase its religious value while yet avoiding the contradictions which seem inseparable from the idea as customarily defined The result of his efforts has been the development of the concept of a dipolar God insofar as contrasting metaphysical predicates e.g. relative/absolute contingent/necessary finite/infinite and so on are affirmed as applicable to God although always in an eminent way Inasmuch as he has elaborated this concept in close dialogue with classical theism he also refers to it as neo-classical Because of the emphasis he places on the reality of change and becoming in his metaphysics which regards God as the chief exemplification of metaphysical principles the term process has likewise been used to describe his notion of God

The God of Freedom Dr. Octavian Caius Obeada, Freedom Before God is a carefully structured apologetics project and this first volume The God of Freedom Classical Foundations and the Metaphysics of Sovereignty addresses one of the most difficult and misunderstood questions in Christian thought how divine sovereignty foreknowledge and human freedom fit together without contradiction Rather than beginning with competing theological models or denominational debates this opening volume starts where clarity must begin at the level of worldview metaphysics and the classical doctrine of God Written for students pastors and thoughtful readers the book explains why our understanding of God shapes ethics science responsibility and moral accountability It presents classical theism not as abstract philosophy but as the conceptual foundation that makes meaningful discussions of freedom evil and divine action possible With patience and balance it examines divine aseity simplicity eternity and sovereignty as the necessary groundwork for later debates about human freedom and foreknowledge This first volume does not aim to settle every controversy Instead it equips readers to think clearly faithfully and responsibly preparing them for the deeper discussions that follow in subsequent volumes

**Does Jesus Make a Difference?** College Theology Society,1984 [The Bolsec Controversy on Predestination, from 1551 to 1555: Theological currents, the setting and mood, and the trial itself, bk. 1-2](#) Philip C. Holtrop,1993 [The Relational Power of God](#) Eleanor O'Donnell,2023-01-23 When we find the courage to allow our rebel voice to speak many of us question traditional Christian beliefs about God s power and how it is exercised in the world and in the church We ask What if God is not in omnipotent control of everything What if God s exercise of power is relational and noncoercive instead What if it is the quality rather than the quantity of God s power that really matters This book focuses on the theology of power that emerges when we ask such questions It draws on the social Trinitarian theology of Jurgen Moltmann and the process thought of Charles Hartshorne to image God as a Social Trinity in process This vision of God understands the Holy Trinity to be fully relational and thoroughly with us and all creation To think of God and God s power this way ensures freedom for creature and creation and enables a viable response to the problem of evil and suffering It also leads to the conclusion that human relationships in the world and in the church are best modeled on the power sharing solidarity of the Triune God **Monthly Bulletin** San Francisco Public Library,1919 **World Philosophers and Their Works: Freud, Sigmund - Oakeshott, Michael** John K. Roth,Rowena Wildin,2000 Contains entries that provide information about some of history s greatest philosophers and philosophical works arranged alphabetically from Freud to Oakeshott **What is in Me Dark, Illumine** Carrie Ann McLachlan,1989 **Traditional Theism and Its Modern Alternatives** Svend Andersen,1994 This collection of papers is from the Ninth European Conference on the Philosophy of Religion held at the University of Aarhus Denmark in August 1992 The theme of the conference was theism and its modern alternatives Why alternatives There is no agreement on the answer to that question Before outlining the nature of the disagreements there is a need to distinguish theism where it means some belief in God and theism as a certain kind of philosophical response to that belief If theism is to be spoken of in both contexts the following question arises is philosophical theism an adequate response to religious theism *The Trinity of Love* Anthony Kelly,1989 **Horizons** ,1980 **The Bible in Theology & Preaching**
