## Being Luis:

From Becoming to Just Being Morris Rozario, 2022-05-18 From Becoming to Just Being Essentially this memoir is about living life to its fullest to achieve its greatest but most elusive goal Real Happiness Discovering the joy that true love brought to my heart I began to value meaningful relationships which I cherished with family and friends The strength that these bonds brought helped me to understand and endure the painful experiences that life inevitably presents including the death of loved ones My search for a fulfilling life and enduring happiness led me to take up career opportunities in various countries around the world Although these brought financial success and much pleasures and enjoyments they were always fleeting and punctured by life s trials and tribulations This lifelong search finally steered me to South India where the well known sage Bhagavan Ramana Maharshi lived from 1879 to 1950 His Words guided me to the fountain of innate happiness that lies within my Self After nearly a lifetime I learnt that real happiness lies within oneself It is an enduring happiness that is not dependent on fleeting external objects and experiences I share these experiences so that you too might overcome the many challenges that life presents and find the Happiness that is within your Heart Morris Rozario Tbi—To Be Injured Carol Gieg, 2017-01-04 Carol Gieg a licensed clinical social worker has always thrived on helping other people solve problems But one day unknown to her she soon be facing serious problems of her own After dropping her husband off at work she went on a bike ride As someone who enjoyed hiking and staying active it was a routine day Somehow she suffered an accident as well as seizures By the time she arrived at the hospital her brain was bleeding and it was unclear if she survive Many others could tell similar stories Brain injuries cause more deaths than any other sports injury In fact a traumatic brain injury occurs every fifteen seconds and is the number one cause of death in children and young adults according to the Brain Injury Research Institute Those lucky enough to survive a brain injury face many challenges more so than others Whether you're coping with an injury yourself or have a loved one seeking to discover a new normal you'll be informed and inspired by this story of surviving and thriving after a brain injury *The Phenomenon of Information* Mario Pérez-Montoro, 2007-06-11 We are surrounded by information Even the most routine situations in which we find ourselves conceal a hidden information flow Every step we take a host of signals meet us providing information about what is happening in other parts of reality The cherry tree in bloom reveals that spring has arrived The footprint left on wet sand indicates that someone has walked along the beach A red traffic light signals that we must bring our car to a halt In *The Phenomenon of Information* author Mario Pérez Montoro addresses the problems of providing a theoretical explanation of how a signal carries informational content how to identify its characteristics and how to define the mechanisms for describing it To do this Pérez Montoro examines several theoretical approaches to the phenomenon of information the mathematical theory of communication Dretske's approach and the relational theory of meaning A critique of these efforts leads to the author's definition of informational content named the extensional approach which is designed to overcome the conceptual limitations of the previous theories The author proposes

that his definition might serve as a basis on which a satisfactory analysis of the concept of information can be developed
