Belonging And Alienation Religious Foundations For The Human Future:

Belonging and Alienation Philip Hefner, W. Widick Schroeder, 1976 *The Oxford Handbook of Theological Ethics*
Gilbert Meilaender, William Werpehowski, 2007-08-09 Annotation What are the practical and theoretical issues that concern and shape theological ethics This handbook offers a guide to the discipline Written by an international group of 30 scholars the book is aimed at all students and academics who want to explore more fully essential topics in Christian ethics

Science And Theology Ted Peters, 2019-05-20 How can we think about God's action in a quantum world of indeterminacy in a world that began with a Big Bang in a world in which life evolved and is continually evolving in a world governed by entropy and heading toward its eventual heat death These are some of the most perplexing questions that have arisen from the rapid scientific and techno All Under Heaven John H. Berthrong, 1994-01-01 This book is a study of comparative philosophy and theology The themes are the critical issues arising from the modern interpretation of Confucian doctrine as they confront the Christian beliefs of the nineteenth and twentieth centuries **Christianity and Ecological Theology** E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa *Concerning Creativity* John H. Berthrong, 1998-10-01 This work examines the philosophies and theologies of three thinkers Chu Hsi Alfred North Whitehead and Robert C Neville separated by time space and culture In so doing John H Berthrong provides a suggestive and successful comparison of creativity as a cross cultural theme while introducing Neo Confucianism as a sophisticated dialogue partner with modern Western speculative philosophy and theology Creativity lies at the heart of the discourse of Chu Hsi 1130 1200 and Alfred North Whitehead For both creativity emerges as an attempt to illustrate the organic unity of the world without resorting to an appeal to a source for creativity beyond the concrete actuality of the cosmos Subtle critics such as Robert C Neville argue that process thought is fatally flawed because Whitehead separated creativity from the other crucial elements of his system By interjecting the Chinese Neo Confucian synthesis of Chu Hsi it is possible to show how creativity can be re integrated into process discourse as creative synthesis **Social Ethics and the Return to Cosmology** Moni McIntyre, 1992 This book is an examination of the major writings of Gibson Winter in order to observe the development of his social ethics from his early individualist perspective to his most recent venture into the area of communal creationism McIntyre's main area of interest is Winter's approach to cosmology and how he sees the human in relation to the rest of the universe The author highlights Winter's ethic of mutuality in relation to his views on the family society and the cosmos The book invites us to reflect upon our connection to the world and to take seriously our responsibility for it This invitation is issued to each generation and calls us to listen to our deepest selves and to one another

The Human Factor Philip Hefner, 1993 This amazing book takes into account all of the leading premises of the modern concept of biocultural evolution and builds a bridge to religious theory Its value lies in its ability to pose the major questions and sketch proposals for dealing with them To my knowledge it is the first work to make such an attempt Solomon H Katz University of Pennsylvania Hefner s book is a major breakthrough in doing constructive theology His view of human beings as created co creators is filled with balanced insight regarding how humans are united with the rest of creation while having a special place because of their brains and culture Karl E Peters Coeditor *Zygon Journal of Religion and Science*

Gower, 1990-06-29 It remains the case that economic ethics is still an underdeveloped specialization within the discipline of religious ethics Contemporary commentators have lamented the still emergent status of economic ethics and recently some have begun to point out new directions for this area of moral reflection Part of the problem has been the historical fact that not many religious ethicists have taken the time to acquire the required specialization competence in economics economic theory and history Religion and Economic Ethics presents nineteen readings that illuminate the economic side of religious ethics Contributions include Economic Justice and the Common wealth of Peoples by Douglas Sturm Economic Systems and the Sacramental Imagination by Joseph La Barge Common Moral and Religious Grounds for Uncommon Economic Times by James F Smurl Liberation Theology and the Vatican by Arthur F McGovern Co published with the College Theology Society
