Force of Gravity J.J. Fox,2013-05-29 Having taken the first step toward the Truth with us how far are you now willing to go You have tasted the latent potential that exists in your core To have only scratched the surface of that potential simply cannot be the end of our journey together Hyperions struggle endures We stewards of the last free city know too well that we cannot hope to win a battle of attrition Something must be done to alter our fate before we are utterly consumed by it If we fall humanity will require men and women like you to bear our standards onward Force of Gravity is the second installment in the saga of Benjamin Meaks We have seen the fires of hope and belief kindled within him Now we must see the steel of his resolve tempered by far greater trials than any youthful spirit ought to suffer To continue his tale you must also be prepared to confront the inconvenient truths of your present existence If you have come this far with us we are already victorious It may not be possible to divine which seed will flourish and rise to the mightiest height but it would be foolish not to recognize that more seeds are superior to few Hyperion will never turn away an inquisitive mind We can ill afford to be so wasteful
