Benjamins Dreadful Dream:

Benjamin's Dreadful Dream, 1981 **Dickens and Benjamin** Gillian Piggott, 2016-04-15 Placing the works of Charles Dickens and Walter Benjamin in conversation with one another Gillian Piggott argues that the two writers display a shared vision of modernity Her analysis of their works shows that both writers demonstrate a decreased confidence in the capacity to experience truth or religious meaning in an increasingly materialist world and that both occupy similar positions towards urban modernity and its effect upon experience Piggott juxtaposes her exploration of Benjamin's ideas on allegory and messianism with an examination of Dickens's *The Old Curiosity Shop* arguing that both writers proffer a melancholy vision of a world devoid of space and time for religious experience a state of affairs they associate with the onset of industrial capitalism In Benjamin's *The Arcades Project* and Dickens's *Sketches by Boz* and *Tale of Two Cities* among other works the authors converge in their hugely influential treatments of the city as a site of perambulation creativity memory and autobiography At the same time both authors relate to the vertiginous mutable fast paced nature of city life as involving a concomitant change in the structure of experience an alteration that can be understood as a reduction in the capacity to experience fully Piggott's persuasive analyses enable a reading of Dickens as part of a European particularly a German tradition of thinkers and writers of industrialization and modernity For both Dickens and Benjamin truth appears only in moments of revelation in fragments of modernity [The Philosophical Child](#) Jana Mohr Lone, 2012-09-16 What does it mean to be good Why do people die What is friendship Children enter the world full of questions and wrestle with deep thoughtful issues even if they do not always wonder them aloud Many parents have the desire to discuss philosophical ideas with their children but are unsure how to do so *The Philosophical Child* offers parents guidance on how to gently approach philosophical questions with children of all ages Jana Mohr Lone argues that for children to mature emotionally they must develop their desire and ability to think abstractly about themselves and their experiences This book suggests easy ways that parents can engage with their children's philosophical questions and help them develop their philosophical selves
