British Literary Culture and Publishing Practice, 1880-1914 Peter D. McDonald,2002-05-09 This book examines the radical transformation of British literary culture during the period 1880 1914 as seen through the early publishing careers of three highly influential writers Joseph Conrad Arnold Bennett and Arthur Conan Doyle Peter D McDonald examines the cultural politics of the period by considering the social structure of the literary world in which these writers were read and understood Through a wealth of historical detail he links the publishing history of key texts with the wider commercial ideological and literary themes in the period as a whole By tracing the complex network of relationships among writers publishers printers distributors reviewers and readers McDonald demonstrates that the discursive qualities of these texts cannot be fully appreciated without understanding the material conditions of their production In so doing he makes social history a central part of literary studies and shows the importance of the history of publishing in questions of critical interpretation
