Shakespeare by Another Name Mark Anderson, 2006 The debate over the true authorship of Shakespeare's body of work began not long after the death of William Shakespeare the obscure actor and entrepreneur from Stratford Upon Avon who was assumed to be the author Being an uneducated son of a glover who had never left England the chances that William Shakespeare produced infamous works like Hamlet are slim This is the first complete literary biography of Edward de Vere and finds in his history all the background material found in Shakespeare's plays A truly fascinating study *The Struggle for the Succession in Late Elizabethan England* Jean-Christophe Mayer, 2004 **Notes and Queries**, 2007 Staging Ireland Stephen O'Neill, 2007 This book is a comprehensive study of the representation of Ireland in the plays of Shakespeare and his contemporaries Through a detailed analysis of a range of canonical and less familiar plays such as *The Misfortunes of Arthur* *Captain Thomas Stukeley* *Sir John Oldcastle* and Dekker's *The Honest Whore* this book reveals fascinating interconnections between Ireland as it was figured in Elizabethan and early Jacobean drama and contemporaneous political and cultural anxieties about Ireland and Irish alterity Exploring how the stage provided a fluid though licensed space where such anxieties were negotiated and confronted this study questions views of the stage Irishman as a static colonialist stereotype Instead it demonstrates that dramatic representations of Ireland were dynamic heterogeneous and ideologically unstable Opening up Renaissance drama to its multivalent Irish contexts *Staging Ireland* will appeal to scholars and students of Shakespeare and early modern literature drama and theatre as well as Irish studies **The Rest of the Story** Robert Thacker, 1999 Leading critics explore the myriad connections informing Canadian author Munro's deceptively simple tales **Renaissance Et Réforme**, 2010 **Essays on Canadian Writing**, 1998 *The Poet's Time* Younkyung Kim, 2007 England's Helicon Hester Lees-Jeffries, 2007 England's Helicon is about one of the most important features of early modern gardens the fountain It is also a detailed study of works by Philip Sidney Edmund Spenser and Ben Jonson and of an influential Italian romance the *Hypnerotomachia Poliphili* Fountains were strong points in the iconography and structure of gardens symbolically loaded and interpretatively dense soliciting the most active engagement possible from those who encountered them These qualities are registered and explored in their literary counterparts England's Helicon is not a simple motif study of fountains in English Renaissance literature it is rather an investigation of how each might work of how literary fountains both inform and are informed by real fountains in early modern literature and culture While its main focus remains the literature of the late sixteenth century England's Helicon recognises that intertextuality and influence can be material as well as literary It demonstrates that the missing piece needed to make sense of a passage in a play a poem or a prose romance could be a fountain a conduit a well or a reflecting pool in general or even in a specific known garden it also considers portraits textiles jewellery and other artefacts depicting fountains Early modern English gardens and fountains are almost all lost but to approach them through literary texts and objects is often to recover them in new ways This is the double project that England's Helicon undertakes in so doing it offers a new model for the exploration of the interconnectedness of
