## Dissonant Voices:

**Writing Across Cultures** Robert Eddy, Amanda Espinosa-Aguilar, 2019-07-01 Writing Across Cultures invites both new and experienced teachers to examine the ways in which their training has or has not prepared them for dealing with issues of race power and authority in their writing classrooms The text is packed with more than twenty activities that enable students to examine issues such as white privilege common dialects and the normalization of racism in a society where democracy is increasingly under attack This book provides an innovative framework that helps teachers create safe spaces for students to write and critically engage in hard discussions Robert Eddy and Amanda Espinosa Aguilar offer a new framework for teaching that acknowledges the changing demographics of US college classrooms as the field of writing studies moves toward real equity and expanding diversity Writing Across Cultures utilizes a streamlined cross racial and interculturally tested method of introducing students to academic writing via sequenced assignments that are not confined by traditional and static approaches They focus on helping students become engaged members of a new culture namely the rapidly changing collegiate discourse community The book is based on a multi racial rhetoric that assumes that writing is inherently a social activity Students benefit most from seeing composing as an act of engaged communication and this text uses student samples not professionally authored ones to demonstrate this framework in action Writing Across Cultures will be a significant contribution to the field aiding teachers students and administrators in navigating the real challenges and wonderful opportunities of multi racial learning spaces

**The Metaphysics of Paradox** Wm. Andrew Schwartz, 2018-09-15 This book is an exploration into the paradoxical structure of pluralistic thinking as illuminated by both Western and Eastern insights especially Jainism By calling into question the most fundamental assumptions of religious pluralists the author hopes to contribute to a paradigm shift in discourse on religious pluralism and conflicting truth claims

**Taking Off Roofs and Building Bridges** Alan J. Pihringer, 2022-09-27 Why don t they believe the same things I do Why don t they see things my way We get frustrated when people hold differing opinions from ours or view life s major issues from conflicting angles Their system of belief their worldview seems foreign to us as they filter the events of this world in ways that we would never have imagined and then come to conclusions that we would never even consider When other peoples worldviews contradict ours both of us cannot be right Is there a way to account for the differences and determine if one is right and the other wrong For the Christian especially can we defend the Christian worldview in a way that upholds our entire system of belief and then opens the door to share the gospel with those who believe differently from us The method of worldview apologetics enables the Christian to expose the faults in other worldviews demonstrate the truth of the Christian worldview and build a bridge for others to hear the gospel of Jesus Christ Both scholarly and practical worldview apologetics equips the Christian to assess and critique differing belief systems and fulfill the call to Great Commission outreach
