Distress Reduction Through A Sensory Preparation Curn Project:

Distress Reduction Through Sensory Preparation Jo Anne Horsley, 1981 **Current Catalog** National Library of Medicine (U.S.), 1983 First multi year cumulation covers six years 1965-70 **Evaluating Research for Evidence-Based Nursing Practice** Jacqueline Fawcett, Joan Garity, 2008-08-22 Where is the evidence in a nursing research study What is the evidence How good is the evidence And how is it relevant to providing evidence based nursing care Ensure that students can meet the AACN's American Association of Colleges of Nursing goal of identifying valid research findings and using them to determine if they are providing care that is supported by evidence **Stress and Coping in Nursing** Roy D. Bailey, Margaret Clarke, 2013-11-11 Increasingly stress as a concept is being used as an explanation of a wide variety of negative phenomena which are experienced by all people but which include nurses in particular and their patients Nursing has been identified as a high stress profession and one can hardly pick up a nursing journal or even read a newspaper article about nursing without finding the word stress used liberally Examples of its use are found in relation to sickness absence rates high level of nursing staff turnover discontent in nursing the effects of unemployment the effects of overwork having too much responsibility having too little responsibility or control the effects of constantly giving emotionally to others the causes of illness the effects of going into hospital delayed healing anxiety depression and alcoholism Given the heterogeneous nature of these phenomena some of which are the diametric opposite of others and that they are clearly being attributed to the one concept stress then that concept must necessarily be of importance within people's lives Or is it perhaps just a fashionable global but ultimately empty explanation Roy Bailey and I believe that stress is an extremely important concept Indeed we would argue that it is a meta concept rather than a concept which does indeed serve to explain many disparate phenomena **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1982 **Monographic Series** Library of Congress, **Library of Congress Catalogs** Library of Congress, 1983 **Understanding Nursing Research** Nancy Ann Burns, Susan K. Grove, 1999 The new second edition of this AJN Book of the Year introduces each step in the nursing research process and shows how to read summarize critique and use the findings in clinical practice The authors both published nurse researchers employ a consistent style and a nursing oriented approach Highlights from published research studies and critique questions make this subject easy to understand and enjoyable to learn **The Publishers' Trade List Annual**, 1985 **Reducing Diarrhea in Tube-fed Patients** Curn Project, 1981 **Subject Catalog, 1982** Library of Congress, 1982 **Subject Catalog** Library of Congress, 1982 *The British Library General Catalogue of Printed Books 1976 to 1982* British Library, 1983 *Behavioral Health* Joseph D. Matarazzo, 1984 Abstract A collection of the most significant behavioral and biomedical findings on disease prevention and health enhancement intended for an audience of health professionals is presented by 95 prominent researchers in their respective but interrelated fields of endeavor There are 12 categorical topics including general and age related prenatal neonatal adolescence adulthood features of behavioral health health enhancement
