## **Distributist Perspectives:**

Distributist Perspectives John Sharpe, 2008 This compilation of important distributist authors delivers valuable insight into the manifest problems of society Although most of the contributions were written more than 50 years ago the questions raised by the writers have remained largely unanswered and essays regarding topics like education work and freedom have lost little relevance in the ensuing decades Featured authors include Eric Gill Harold J Massingham and Dorothy Sayers

Distributist Perspectives, 2004 The Economic Thought of Hilaire Belloc Alfonso Díaz Vera, 2024-06-14 Hilaire Belloc's thinking on the economy constitutes by its originality and acuity a heterodox approach of the greatest interest in addressing the economic problems of his time and those of our own Belloc's main interest as a writer were on economics and history and his works were praised by economists such as F A Hayek or Wilhelm Röpke and political philosophers such as Robert Nisbet and Russell Kirk but his contributions have been often overlooked To address that oversight this book inserts Belloc's ideas into the academic dialogue on economics Despite not being a trained economist Belloc developed his thought based on a coherent system rooted in original elements such as the scholastic tradition Belloc's Christian or post scholastic economics updates and renews many of the scholastic concepts to make them applicable to the economy of the world he knew Issues such as the impossibility of socialism entrepreneurship the effects of monetary policy and credit on economic cycles or the sustainability of the welfare state were studied by Belloc from a very singular perspective Describing and interpreting the economic thought of Belloc the book will be of interest to scholars and students as well as general readers interested in heterodox perspectives on economics

**Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy** Jon D. Schaff, 2019-07-03 This bold groundbreaking study of American political development assesses the presidency of Abraham Lincoln through the lenses of governmental power economic policy expansion of executive power and natural rights to show how Lincoln not only believed in the limitations of presidential power but also dedicated his presidency to restraining the scope and range of it Though Lincoln's presidency is inextricably linked to the Civil War and he is best known for his defense of the Union and executive wartime leadership Lincoln believed that Congress should be at the helm of public policy making Likewise Lincoln may have embraced limited government in vague terms but he strongly supported effective rule of law and distribution of income and wealth Placing the Lincoln presidency within a deeper and more meaningful historical context Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy highlights Lincoln's significance in the development of American power institutions and social movement politics Using Lincoln's prepresidential and presidential words and actions this book argues that decent government demands a balance of competing goods and the strong statesmanship that Lincoln exemplified Instead of relying too heavily on the will of the people and institutional solutions to help prevent tyranny Jon D Schaff proposes that American democracy would be better served by a moderate and prudential statesmanship such as Lincoln's which would help limit democratic excesses Schaff explains how Lincoln's views on prudence moderation natural

rights and economics contain the notion of limits then views Lincoln's political and presidential leadership through the same lens. He compares Lincoln's views on governmental powers with the defense of unlimited government by twentieth-century progressives and shows how Lincoln's theory of labor anticipated twentieth-century distributist economic thought. Schaff's unique exploration falls squarely between historians who consider Lincoln a protoprogressive and those who say his presidency was a harbinger of industrialized corporatized America. In analyzing Lincoln's approach, Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy rejects the idea he was a revolutionary statesman and instead lifts up Lincoln's own affinity for limited presidential power, making the case for a modest approach to presidential power today based on this understanding of Lincoln's statesmanship. As a counterpoint to the contemporary landscape of bitter uncivil politics, Schaff points to Lincoln's statesmanship as a model for better ways of engaging in politics in a democracy.

*Suffering and Bioethics* Ronald Michael Green, Nathan J. Palpant, 2014. Before curing was a possibility, medicine was devoted to the relief of suffering. Attention to the relief of suffering often takes a back seat in modern biomedicine. This book seeks to place suffering at the center of biomedical attention, examining suffering in its biological, psychological, clinical, religious, and ethical dimensions.

*Early Ecotheology and Joseph Sittler* Panu Pihkala, 2017. When did Christians begin to address environmental questions? What can be learned from these pioneering thinkers? This study reveals that between 1910 and 1954 many theologians called for responsibility towards nature. The focal point is the work of Joseph Sittler (1904-1987), an American Lutheran and ecumenical theologian. The role of these early ecotheologians is discussed in relation to environmental history and education. The findings show that ecotheology was not as strongly separated from other environmentalism as it was after the 1960s. Series: Studies in Religion and the Environment. Studien zur Religion und Umwelt, Vol. 12. Subject: Religious Studies, Environmental Studies, Ecotheology. Joseph Sittler. Placed People David

Harden, 2015-12-30. Modern humans are given lots of labels. Some see humans as consumers, consumers of goods, services, and entertainment for the economy. Some see humans as souls to be saved. Some say humans are destructive animals that must not think too highly of themselves at the peril of the planet. All of these often competing and contradictory labels beg the question: What are people for? This book locates the starting point for answering this question in a placed perspective and examines what G. K. Chesterton, C. S. Lewis, and Wendell Berry have to show us in this regard. These authors' rooted perspectives challenge us to see our communities and ourselves differently.

*Dictionary of Liberal Thought* Duncan Brack, Ed. Randall, 2007. Do you often find yourself saying, "I'm so busy" or "I just have so much to do"? It's easy to get overwhelmed with appointments, gatherings, to-do lists. But what are we really doing with our time? Many of us are running from place to place, and it seems like life is just passing us by. We're doing so many things, a little bit of everything, and yet it doesn't feel like much of a life. But most of us find it hard to say no. We feel obligated. There are so many good things to do. So many good causes. G.K.'s Weekly, 1925. Chronicles, 2005. **Christian Scholar's Review**, 2005. *How to be Free*

Tom Hodgkinson, 2006 *Drawing on the French existentialists British punks the US beats hippies and yippies medieval thinkers anarchists and 1970s back to the landers* such as Ivan Illich Idler editor Tom Hodgkinson provides a new simple joyful blueprint for modern living He shows that consumer society has led not to a widening of freedoms but to the opposite and that the key to a free life is to stop consuming and start producing We are not consumers we are creators Following up his cult bestseller *How To Be Idle* Tom Hodgkinson takes us on an inspirational journey towards true freedom and happiness Read *How To Be Free* and learn how to throw off the shackles of anxiety bureaucracy debt governments housework moaning pain poverty ugliness war and waste and much else besides

**Toward a Truly Free Market** John Medaille, 2023-10-17 Taking free markets from rhetoric to reality For three decades free market leaders have tried to reverse longstanding Keynesian economic policies but have only produced larger government greater debt and more centralized economic power So how can we achieve a truly free market system especially at this historical moment when capitalism seems to be in crisis The answer says John C Medaille is to stop pretending that economics is something on the order of the physical sciences it must be a humane science taking into account crucial social contexts *Toward a Truly Free Market* argues that any attempt to divorce economic equilibrium from economic equity will lead to an unbalanced economy one that falls either to ruin or to ruinous government attempts to redress the balance Medaille makes a refreshingly clear case for the economic theory and practice known as distributism Unlike many of his fellow distributists who argue primarily from moral terms Medaille enters the economic debate on purely economic terms *Toward a Truly Free Market* shows exactly how to end the bailouts reduce government budgets reform the tax code fix the health care system and much more

**G.K.'s Weekly and the Weekly Review**, 1927 *A Path of Our Own* Adam Kempton Webb, 2009 *A Path of Our Own* tells the story of Pomatambo a village in one of the poorest parts of Peru s highlands Adam Webb brings to life the experiences of three generations of these humble peasants as they have been confronted by the modern world and tried to find a place in it Through a land reform a bloody Maoist insurgency and the economic turbulence of more recent years Pomatambo has looked for a way to break out of dire poverty while staying true to its own values and identity But this is much more than the story of one village Pomatambo s tale of hard times mirrors how traditional communities all over the world have been ill served by the dominant ideologies of the twentieth century Webb s poignant and insightful narrative demonstrates that the governments and movements of both right and left have not only failed to deliver for the rural poor but also have assaulted much that they hold dear He maps out a vision of how traditional communities like Pomatambo can reclaim the future rather than surrender to others plans for them And he imagines an economy of values that at last could bring a just and decent prosperity to the countryside of the global South and elsewhere
