Transforming Understandings of Diversity in Higher Education Penny A. Pasque, Noe Ortega, Marie P. Ting, John C.

Burkhardt, 2023-07-03 This exciting new text examines one of the most important and yet elusive terms in higher education and society What do we mean when we talk in a serious way about diversity A distinguished group of diversity scholars explore the latest discourse on diversity and how it is reflected in research and practice The chapters trace how the discourse on diversity is newly shaped after many of the 20th century concepts of race ethnicity gender and class have lost authority In the academic disciplines and in public discourse perspectives about diversity have been rapidly shifting in recent years This is especially true in the United States where demographic changes and political attitudes have prompted new observations some which will clash with traditional frameworks This text brings together scholars whose research has opened up new ways to understand the complexities of diversity in higher education Because the essential topic under consideration is changing so quickly the editors of this volume also have asked the contributors to reflect on the paths their own scholarship has taken in their careers and to see how they would relate their current conceptualization of diversity to one or more of three identified themes demography democracy and discourse Each chapter ends with a candid graduate student interview of the author that provides an engaged picture of how the authors wrestle with one of the most complicated topics shaping them and all of us as individuals and as scholars Of interest to anyone who is following the debates about diversity issues on our campuses the book also offers a wonderful introduction to graduate students entering a discipline where critically important ideas are still very much alive for discussion

advice about major issues and administrative problems confronting every institution Cultural Diversity, Educational Equity and the Transformation of Higher Education Michael Benjamin, 1996-07-11 Cultural diversity policy in higher education requires detailed knowledge of the groups in question guiding principles and insight into universities as complex ecological systems The integration of these elements becomes the basis for proposing a variety of changes whose enactment would transform the university as we now know it Across North America making a comfortable place for ethnic minority students in higher education has become a hot topic Known as cultural diversity or educational equity this trend will likely play an important role in higher education over at least the next decade especially in light of on going demographic changes that will see Whites lose their population majority The result has been a growing literature the thrust of which is that policy and programming must be based on respect for difference This value is necessary but not sufficient to adequate planning and implementation of diversity policy and by itself may give rise to practice that is as likely to be harmful as helpful This book highlights and explores three additional elements judged crucial to diversity policy First clearer understanding of major ethnic minority groups second first principles upon which diversity policy should be grounded and third insight into the university as a complex ecological system Out of the integration of these elements emerges proposals for a variety of policy and programmatic changes that give substance to cultural diversity policy In turn full realization of diversity policy would involve the transformation of higher education as we now know it and together with like policies in other areas help to create the pluralistic society of the 21st century An important professional tool for administrators and faculty in higher education
