Divided Legacy:

Divided Legacy Harris L. Coulter, 1982-06 *Divided Legacy Vols I IV* is a history of Western medical philosophy from the time of Hippocrates to the twentieth century treating it as a unified system of thought rather than a series of fortuitous discoveries Dr Coulter interprets the development of medical ideas as the product of a conflict between two opposed systems of thought Empiricism and Rationalism This third volume of *Divided Legacy* continues the account of the conflict between the Empirical and the Rationalist approaches to therapeutics but introduces a socio economic dimension which had earlier been lacking In the early nineteenth century Samuel Hahnemann's formulation of the Empirical therapeutic doctrine which he called homeopathy It flourished especially in the United States This volume traces the history of the rise and decline of this formulation of Empirical therapeutics in the nineteenth century United States It analyzes the interaction between the homeopathic doctrines and those of the orthodox school and attempts to illustrate the influence of socio economic constraints on the movement of medical thought during this period

Divided Legacy Coulter, Harris Livermore Coulter, 1973 Consists of 161 toxicological profiles and 9 interaction profiles This CD ROM characterizes the toxicologic and adverse health effects information for the specific hazardous substances Peer reviewed profiles This work is fully indexed and can be searched easily and cross profiled

Indicted! James Henderson, 2009-02 In what promises to be the trial of the century attorney turned author James Henderson indicts the medical industrial cartel now dominating modern drug based medicine for trading the health of millions of Americans for dollars In the brilliant and intriguing setting of a jury trial the author enrolls We the People of America into a vast national jury to pass judgment on modern pharmaceutical medicine for cunningly treating chronic degenerative diseases like heart disease cancer and diabetes Americas leading killers by merely seeking to manage the symptoms of these diseases not even attempting to cure them Drug based medicine has become big business It thrives on sickness It dares not cure the patient or the money pipe line dries up The price tag Overt two trillion dollars annually and climbing And America is getting sicker by the day Author James Henderson offers the proven testimonies of eminent nutritional physicians and medical geniuses who have turned their backs on this criminal monopoly These brave souls have risked their careers to blow the whistle on the drugging of America In this court of public opinion if we the jury cannot discern the truth what hope is there for justice Or for medical freedom in America Will We the People make a decision before its too late Read *Indicted* and decide for yourself
