## **Divine Attributes:**

**The Christian Doctrine of the Divine Attributes** Hermann Cremer, 2016-05-27 Cremer's short energetic treatise on the divine attributes was admired by both Karl Barth and Wolfhart Pannenberg. Cremer chastises the speculative flights of traditional doctrines of the divine attributes and issues a resounding summons to a more exegetically, economically, and christologically grounded account. Known primarily as a biblical scholar for his *Biblico Theological Lexicon of New Testament Greek*, precursor to the monumental TDNT, Cremer shows himself here also an able systematician with a pastor's eye for the role played by doctrine in the life of congregational and individual faith. [The Divine Attributes](#) Joshua Hoffman, Gary S. Rosenkrantz, 2008-04-15 The *Divine Attributes* is an engaging analysis of the God of Judaism, Christianity, and Islam from the perspective of rational theology. [Divine Attributes](#) John C. Peckham, 2021-05-04 This book offers a clear and constructive account of the nature and attributes of God. It addresses the doctrine of God from exegetical, historical, and constructive theological perspectives, bringing the biblical portrayal of God in relationship to the world into dialogue with prominent philosophical and theological questions. The book engages questions such as: Does God change? Does God have emotions? Does God know the future? Is God entirely good and loving? How can God be one and three? Chapters correspond to the major metaphysical and moral attributes of God. **The Attributes of God** Gerald Bray, 2021-01-25 How can we, created beings, know God, the Creator? Throughout history, the church has recognized the importance of studying and understanding God's attributes. As the Creator of all things, God is unique and cannot be compared to any of his creatures, so to know him, believers turn to the pages of Scripture. In *The Attributes of God*, renowned theologian Gerald Bray leads us on an exploration of God's being, his essential attributes, his relational attributes, and the relevance of his attributes to our thinking, lives, and worship. As we better understand God's attributes, we will learn to delight in who God is and how he has made himself known to us in Scripture. **The Nature of God** Edward R. Wierenga, 2018-05-31 *The Nature of God* explores a perennial problem in the philosophy of religion: Drawing upon developments in philosophy, most notably those in philosophical logic, Edward R. Wierenga examines the traditional divine attributes of omnipotence, omniscience, eternity, timelessness, immutability, and goodness. His philosophically defensible formulations of the nature of God are in accord with the views of classical theists. The author provides an account of each of the divine attributes by stating in contemporary terms what such classical theists as Augustine, Anselm, and Aquinas wrote about the nature of God; he then seeks to determine whether one can defend the ascription of traditional divine attributes to God against philosophical objections. Clearly written and comprehensive, *The Nature of God* contains a wealth of illuminating and original material on a central topic in the philosophy of religion. **The Attributes of God in Islamic Thought** Mansoor Khalilizand, 2024-03-18 The debate over Allah's attributes, the nature, and the inner articulation of Allah is one of the focal debates in the intellectual history of Islam. This edited collection aims to highlight and examine some aspects of this debate in their original context based on the relevant primary literature. By

showing that even an apparently self evident concept such as Allah which lies at the heart of every reading of Islam is highly ambiguous and polysemous the chapters also emphasise the plurality that has always existed in Islamic thought Through highlighting the philosophical and theological reflections on the concept of Allah the results of this study challenge the juristic reading of Islam in which Allah s function consists mainly in providing a detailed plan for the human life and also rewarding or punishing the ones who deviates from it The book also attempts to demonstrate the relevance and the actuality of the tradition and to stress its contemporaneity This volume makes a significant part of the intellectual tradition of Islam accessible for students and scholars of Islamic theology Islamic philosophy Islamic studies and the like as well as providing a secondary source for teaching on the debate in question

The Attributes of God William Wilson,1835     **The Scripture Character of God; Or, Discourses on the Divine Attributes** Henry Forster Burder,1822     *The Divine Attributes* T. J. Mawson,2018-11-15 The Divine Attributes explores the traditional theistic concept of God as the most perfect being possible discussing the main divine attributes which flow from this understanding personhood transcendence immanence omnipresence omniscience omnipotence perfect goodness unity simplicity and necessity It argues that the atemporalist s conception of God is to be preferred over the temporalist s on the grounds of perfect being theology but that if it were to be the case that the temporal God existed rather than the atemporal God He d still be perfect enough to count as the God of Theism

**The divine attributes** T. J. Mawson,2019 The Divine Attributes explores the traditional theistic concept of God as the most perfect being possible discussing the main divine attributes which flow from this understanding personhood transcendence immanence omnipresence omniscience omnipotence perfect goodness unity simplicity and necessity It argues that the atemporalist s conception of God is to be preferred over the temporalist s on the grounds of perfect being theology but that if it were to be the case that the temporal God existed rather than the atemporal God He d still be perfect enough to count as the God of Theism

**Jehovistic names and titles of God. The attributes of God. Sins. Christian dogmatics** Henry Donald Maurice Spence-Jones,Joseph Samuel Exell,Charles Neil,1889     The 52 Attributes of God Raymond Creed,2011 The 52 Attributes of God handles such questions as 1 Who is God 2 What is He like 3 How did He react to the death of Jesus 4 How does He react to the corruption found in much of the Church 5 To what extent can we become like God The 52 Attributes of God should prove particularly useful to religious ministers of all denominational backgrounds local church elders Christian teachers evangelists and theological students The Messianic Jewish community and those wishing to delve deeper into theology would especially benefit It should also be of assistance to those confused or troubled by particular spiritualities which alluringly offer the chance of becoming divine Any public or academic library with a theological section will find it a rich resource

The Philosophical Theology of St. Thomas Aquinas Leo Elders,1990-01-01 The philosophical theology of St Thomas Aquinas is the crowning piece of his metaphysics Leo J Elders studies it against the background of the attempts of the great philoso phers of the past to penetrate deeper into the knowledge of God While the Introduction treats

the nature of philosophical theology according to Aquinas Chapter One presents a concise history of the idea of God in Western philosophical thinking Chapters Two and Three deal with the question of the cognoscibility of God and the Five Ways of St Thomas New solutions are proposed of some difficulties in the Third and Fourth Ways The attributes of God are studied in the order of the Summa theologiae I Chapter Seven considers the grammar of God language The following chapters examine divine knowledge foreknowledge of future events divine will and providence as well as creation The last chapter deals with the problem of the co existence of God and finite creatures This study shows that the philosophical theology of St Thomas Aquinas is a coherent whole of impressive depth and beauty It has its basis in our daily experience of the world and the general principles of being but its conclusions reach the summits of negative theology **Ontology of**

**Divinity** Mirosław Szatkowski,2024-04-22 This volume announces a new era in the philosophy of God Many of its contributions work to create stronger links between the philosophy of God on the one hand and mathematics or metamathematics on the other hand It is about not only the possibilities of applying mathematics or metamathematics to questions about God but also the reverse question Does the philosophy of God have anything to offer mathematics or metamathematics The remaining contributions tackle stereotypes in the philosophy of religion The volume includes 35 contributions It is divided into nine parts 1 Who Created the Concept of God 2 Omniscience Omnipotence Timelessness and Spacelessness of God 3 God and Perfect Goodness Perfect Beauty Perfect Freedom 4 God Fundamentality and Creation of All Else 5 Simplicity and Ineffability of God 6 God Necessity and Abstract Objects 7 God Infinity and Pascal s Wager 8 God and Meta Mathematics and 9 God and Mind **Explanation of the divine attributes (Sifat).** , Emerald Hills of the Heart

M. Fethullah Gülen,2010-07-16 Concluding a textually long but spiritually endless journey toward insan al kamil the perfect human this fourth volume approaches Sufism through the middle way an approach that revives the legacy of the Prophet Muhammad With an awareness of the social realities of the 21st century concepts such as tranquility the truth of divinity life beyond the physical realm the preserved tablet the glorified attributes and the beautiful names are delicately explained

*The Harmony of the Divine Attributes* William Bates,1815 **God: His Knowability, Essence, and Attributes** Joseph Pohle,1914 *Theologia* Revere Franklin Weidner,1902 The Lord is the Spirit Andrew K. Gabriel,2011-01-01 The Lord is the Spirit 2 Cor 3 17 and yet one might be excused for thinking otherwise when reading studies on God s attributes omnipotence omniscience omnipresence immutability impassibility and the like Although Christians throughout the ages have defended the deity of the Holy Spirit theologians have not adequately taken the doctrine of the Holy Spirit into account when formulating a theology of the divine attributes The resulting understandings of God fall short of being fully Trinitarian Gabriel builds on contemporary Trinitarian theology by advocating for the integration of insights from pneumatology into the doctrine of God s attributes Three case studies are presented impassibility immutability and omnipotence Gabriel writes from an evangelical and Pentecostal vantage point as he engages in ecumenical dialogue with a wide spectrum of historical and

contemporary theological voices
