Jonathan L. Kvanvig

Divine Empathy:

Divine Empathy Edward Farley,1996 A major work from one of today s leading theologians Divine Empathy attempts to think the unthinkable how God comes forth actively and redemptively to meet the human situation Apologetic but not polemical Farley s work sympathetically engages yet moves beyond both the classical tradition as well as contemporary anti theisms in formulating a concept of God that is strikingly original intellectually honest and comprehensive Farley s treatise employs the facticity of redemption the actual experience of freedom and empowerment as the primordial source for our thinking about God Part 1 God symbols Part 2 and God s activity Part 3 including the figure of Jesus Farley s astute analysis leads inexorably to a view of divine creativity and empathy that is one of the more profound religious visions of our time

Heresies of the Heart Ryan Lamothe,2009 In this first decade of the new millennium anxiety unease and a deep fear of vulnerability lie silently beneath the rancorous divisions within the Church between denominations and religions and between those who hold differing political beliefs and values Today religious and political discourse and behavior are increasingly marred by the destructive use of emotions that drive self righteous certainty prideful rigidity and violent conformity all of which lead to estrangement alienation and closed communities In the midst of this tragic reality there is also the possibility of constructive use of emotions seen in acts of compassion empathy and intimacy among adversaries This book sets out to understand these human struggles utilizing the idea of heresies of the heart and its relation to types of emotional intelligence and faith By addressing heresies of the heart it depicts healthy relationships and faith characterized by the constructive use of emotions Book jacket

The Making of American Liberal Theology Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

The Empathic God Frank Woggon,2024 In The Empathic God Frank Woggon constructs a clinical theology of at onement Woggon calls for a caring participation in God s ongoing work of salvation through a praxis of spiritual care The book will help practitioners and students of spiritual care as well as clergy to critically reflect on where spiritual care practice and theology meet

Eternal in Love R. T. Mullins,2024-08-27 Do you want to be close to God The answer to a question like this is wrapped up in knowing what God is like understanding the reasons for why God acts as he

does and learning how to promote God's goals for creation. In this short book readers will explore issues about the nature of God, consider why God would create anything at all, and why God would create this particular universe. Through a mixture of devotional insight and philosophical analysis, one will come to a better understanding of the majesty of God. *Theological Studies* William James McGarry, John Courtney Murray, 2004
