Divine Foreknowledge And Necessity:

Divine Foreknowledge and Necessity In-Kyu Song,2002 The omniscience of God poses problems for the concept of free will that has occupied philosophers for centuries Song systematic theology Hapdong Theological Seminary South Korea presents an argument for the presence of free will based on the distinction between hard and soft facts proposed by 14th century theologian and philosopher William of Ockham He suggests that God s knowledge of any particular act is a soft fact that is dependent on the performance of that act itself God s knowledge of an act only becomes true if that act is performed This characteristic of God s knowledge as Ockhamist soft fact is what allows for human freedom of action Annotation

copyrighted by Book News Inc Portland OR **Divine Foreknowledge and Necessity** In-Kyu Song,1996 The central aim of this dissertation is to defend the thesis that divine foreknowledge is compatible with a full blooded libertarian conception of human freedom I argue for such compatibility between the two by way of exploring what sort of necessity is involved in God s foreknowledge with regard to human freedom Assuming that God is sempiternal and essentially omniscient human beings do not seem to have the freedom to do otherwise since God has always foreknown what he knows in regard to human action in the future I conduct the inquiry whether divine foreknowledge is subject to accidental necessity the necessity of the past with the result that God s knowledge is judged to be free from such necessity I am not denying there is an element of pastness in divine foreknowledge in the sense that God held a certain belief at a past time And yet the content of such belief is alethically truthfully connected to the state of affairs which is to obtain in the future This is the gist of what I call the alethic relation In other words truth is analytically connected to God s prior belief It is not complete however for the foreknowledge compatibilist like me to affirm a compatibility with the alethic relation only In order for libertarian free will to be asserted to be compatible with divine foreknowledge counterfactual power over the past should also be available to the agent My contention is that such power which is distinct from any sort of retrocausal one can be invoked on the part of the compatibilist without inconsistency The grounds of such contention is related to the nature of knowledge including God s knowledge in that the knowledge does not cause anything whatsoever but rather human action is the logical basis of divine foreknowledge Therefore the necessity constrained by God s foreknowledge has nothing to do with human freedom to the effect that a compatibility between the two can be consistently maintained **Temporal Necessity and Divine**

Foreknowledge Stephen Richard Boothe,1978 The Dilemma of Freedom and Foreknowledge Linda Trinkaus Zagzebski,1991 This text examines the three traditional solutions to the dilemma of divine foreknowledge and human free will It rejects those from Boethius Ockham and from Molina and proposes three new solutions concluding that divine foreknowledge is compatible with human freedom *The Foreknowledge of God* Lorenzo Dow McCabe,1882 Between Worlds Will Pallister,2008-01-01 William Pallister analyses the rhetorical methods that Milton uses throughout the poem and examines the effects of the three distinct rhetorical registers observed in each of the poem s major settings *The Works of*

Ryan Byerly, 2014-08-28 How exactly could God achieve infallible foreknowledge of every future event including the free actions of human persons How could God exercise careful providence over these same events Byerly offers a novel response to these important questions by contending that God exercises providence and achieves foreknowledge by ordering the times The first part of the book defends the importance of the above questions After characterizing the contemporary freedom foreknowledge debate Byerly argues that it has focused too narrowly on a certain argument for theological fatalism which attempts to show that the existence of infallible divine foreknowledge poses a unique threat to the existence of creaturely libertarian freedom Byerly contends however that bare existence of infallible divine foreknowledge cannot threaten freedom in this way at most the mechanics whereby this foreknowledge is achieved might so threaten human freedom In the second part of the book Byerly develops a model for understanding the mechanics whereby infallible foreknowledge is achieved that would not threaten creaturely libertarian freedom According to the model God infallibly foreknows every future event because God has placed the times that constitute the history of the world in primitive earlier than relations to one another After defending the consistency of this model of the mechanics of divine foreknowledge with creaturely libertarian freedom the author applies it to divine providence more generally A novel defense of concurrentism is the result **The Doctrinal Theology of the Evangelical Lutheran Church** Heinrich Schmid, 1876
The Summa Halensis Lydia Schumacher, 2020-06-22 For generations early Franciscan thought has been widely regarded as unoriginal a mere attempt to systematize the longstanding intellectual tradition of Augustine in the face of the rising popularity of Aristotle This volume brings together leading scholars in the field to undertake a major study of the major doctrines and debates of the so called Summa Halensis 1236 45 which was collaboratively authored by the founding members of the Franciscan school at Paris above all Alexander of Hales and John of La Rochelle in an effort to lay down the Franciscan intellectual tradition or the first time The contributions will highlight that this tradition far from unoriginal laid the groundwork for later Franciscan thought which is often regarded as formative for modern thought Furthermore the volume shows the role this Summa played in the development of the burgeoning field of systematic theology which has its origins in the young university of Paris This is a crucial and groundbreaking study for those with interests in the history of western thought and theology specifically **Divine Nescience of Future Contingencies a Necessity** Lorenzo Dow McCabe, 1882 *Divine Foreknowledge and Human Freedom* William Lane Craig, 1990-12-01 The ancient problem of fatalism more particularly theological fatalism has resurfaced with surprising vigour in the second half of the twentieth century Two questions predominate in the debate 1 Is divine foreknowledge compatible with human freedom and 2 How can God foreknow future free acts Having surveyed the historical background of this debate in *The Problem of Divine*
