Each volume of this groundbreaking set is composed of 20-25 previously unpublished articles written by expert contributors from diverse disciplines. Volume one covers Asia and Africa, volume two covers the Eastern Mediterranean and Europe, and volume three covers Australia and the Americas. Goddesses from cultures often overlooked in texts on religion, such as those of the Australian Aborigines, Korea, Nepal, and the Caribbean, are included here. In addition, the work offers new translations of ancient texts, introduces little-known folklore, and suggests new approaches to contemporary religious practices.

The Natural World and God Denis Edwards, 2017-12-31. How are we to think about the natural world around us in relation to the God of Jesus? Astronomers, cosmologists, and evolutionary biologists have opened wonderfully new ways of seeing the community of life on Earth and its place in the universe. At the same time, we are facing an extreme crisis of life on our planet. Both of these realities demand that we rethink our theology of animals, plants, ecosystems, as well as galaxies and stars. In this book, Denis Edwards collects together a series of explorations into this kind of theology.
