Between Homeland and Motherland Alvin B. Tillery, Jr., 2011-03-15 In *Between Homeland and Motherland* Alvin B Tillery Jr considers the history of political engagement with Africa on the part of African Americans beginning with the birth of Paul Cuffe s back to Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000 In contrast to the prevailing view that pan Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa Tillery highlights the importance of domestic politics and factors within the African American community Employing an innovative multimethod approach that combines archival research statistical modeling and interviews Tillery argues that among African American elites activists intellectuals and politicians factors internal to the community played a large role in shaping their approach to African issues and that shaping U S policy toward Africa was often secondary to winning political battles in the domestic arena At the same time Africa and its interests were important to America s black elite and Tillery s analysis reveals that many black leaders have strong attachments to the motherland Spanning two centuries of African American engagement with Africa this book shows how black leaders continuously balanced national transnational and community impulses whether distancing themselves from Marcus Garvey s back to Africa movement supporting the anticolonialism movements of the 1950s or opposing South African apartheid in the 1980s

Black Nationalism in American History Mark Newman, 2017-12-04 Provides a concise up to date introduction to and overview of black nationalism in American history This analytical introduction assesses contrasting definitions of black nationalism in America thereby providing an overview of its development and varied manifestations across two centuries Its aim is to evaluate historiographical debates and synthesize a broad range of scholarship much of it published since the beginning of the new millennium However unlike some of that work this book offers a critical perspective that avoids advocacy or condemnation of black nationalism by examining major

black nationalist thinkers leaders and organizations as well as discussing some lesser known groups and figures the nature of black nationalism s appeal and the position of women in and their contributions to black nationalism Key Features Considers divergent definitions of black nationalism providing an understanding of the nature of black nationalism Outlines historiography with an up to date assessment of key debates and leading scholarship Considers continuity encouraging discussion of whether black nationalism was essentially unchanging or reflective of particular historical circumstances Looks beyond leading figures to understand how why and when black nationalism gained support
