An Invitation to Mathematics Dierk Schleicher,Malte Lackmann,2011-05-19 This Invitation to Mathematics consists of 14 contributions many from the world s leading mathematicians which introduce the readers to exciting aspects of current mathematical research The contributions are as varied as the personalities of active mathematicians but together they show mathematics as a rich and lively field of research The contributions are written for interested students at the age of transition between high school and university who know high school mathematics and perhaps competition mathematics and who want to find out what current research

mathematics is about We hope that it will also be of interest to teachers or more advanced mathematicians who would like to learn about exciting aspects of mathematics outside of their own work or specialization Together with a team of young test readers editors and authors have taken great care through a substantial active editing process to make the contributions understandable by the intended readership
