## **Capitalism Russian Style:**

**Capitalism Russian-Style** Thane Gustafson,1999-11-18 Capitalism Russian Style provides a progress report on one of the most important economic experiments going on in the world today the building of capitalism in Russia It describes Russian achievements in building private banks companies stock exchanges new laws and law courts It analyzes the role of the mafia the new financial empires entrepreneurs business tycoons and the shrinking Russian state Thane Gustafson tells how the Soviet system was dismantled and the new market society was born and examines the prospects for a Russian economic miracle in the twenty first century

**Capitalism Russian-style** Thane Gustafson,1999 **Russian Politics Under Putin** Cameron Ross,2004-08-21 In March 2000 Vladimir Putin was elected President of the Russian Federation the largest country in the world In the space of just a few years Putin s radical reforms in the areas of domestic and foreign policy have made a major impact on Russian politics and society and we have witnessed a new orientation in Russia s external relations with the West But is Putin an authoritarian or a democrat Does his presidency signal a break with Russia s past or is he just another autocratic czar in modern clothing This is a lively comprehensive and highly accessible account of contemporary Russian politics There are fifteen chapters covering such key areas as leadership and regime change political parties and democratization economy and society regional politics the war in Chechnya and Russian foreign policy

**The Commanding Heights** Daniel Yergin,Joseph Stanislaw,2002-06-15 The Commanding Heights is about the most powerful political and economic force in the world today the epic struggle between government and the marketplace that has over the last twenty years turned the world upside down and dramatically transformed our lives Now the Pulitzer Prize winning author of The Prize joins with a leading expert on the new marketplace to explain the revolution in ideas that is reshaping the modern world Written with the same sweeping narrative power that made The Prize an enormous success The Commanding Heights provides the historical perspective the global vision and the insight to help us understand the tumult of the past half century Trillions of dollars in assets and fundamental political power are changing hands as free markets wrest control from government of the commanding heights the dominant businesses and industries of the world economy Daniel Yergin and Joseph Stanislaw demonstrate that words like privatization and deregulation are inadequate to describe the enormous upheaval that is unfolding before our eyes Along with the creation of vast new wealth the map of the global economy is being redrawn Indeed the very structure of society is changing New markets and new opportunities have brought great new risks as well How has all this come about Who are the major figures behind it How does it affect our lives The collapse of the Soviet Union the awesome rise of China the awakening of India economic revival in Latin America the march toward the European Union all are a part of this political and economic revolution Fiscal realities and financial markets are relentlessly propelling deregulation achieving a new balance between government and marketplace will be the major political challenge in the coming years Looking back the authors describe how the old balance was overturned and by whom Looking forward

they explore these questions Will the new balance prevail Or does the free market contain the seeds of its own destruction Will there be a backlash against any excesses of the free market And finally The Commanding Heights illuminates the five tests by which the success or failure of all these changes can be measured and defines the key issues as we enter the twenty first century The Commanding Heights captures this revolution in ideas in riveting accounts of the history and the politics of the postwar years and compelling tales of the astute politicians brilliant thinkers and tenacious businessmen who brought these changes about Margaret Thatcher Donald Reagan Deng Xiaoping and Bill Clinton share the stage with the Minister of Thought Keith Joseph the broommaker s son Domingo Cavallo and Friedrich von Hayek the Austrian economist who was determined to win the twenty year battle of ideas It is a complex and wide ranging story and the authors tell it brilliantly with a deep understanding of human character making critically important ideas lucid and accessible Written with unique access to many of the key players The Commanding Heights like no other book brings us an understanding of the last half of the twentieth century and sheds a powerful light on what lies ahead in the twenty first century

### **Destination in Doubt**

Stephen Lovell,2008-02-29 The enormously complex changes triggered by the collapse of communism in Eastern Europe were nowhere more ambiguous than in the heartland of the Soviet bloc Russia itself Here the population was divided on all the most fundamental questions of post communist transition economic reforms the Communist Party the borders of the state even the definition of the Russian nation itself Russians also faced plummeting living standards and chronic uncertainty In a matter of months Russia was apparently demoted from evil empire to despondent poor relation of the prosperous West Yet the country also seemed alarmingly open to all manner of political outcomes Russia deserves our attention now as much as ever because it raises so many of the big questions about how societies operate in the modern world

### **Global Finance,**

**Local Control** Igor O. Logvinenko,2021-10-15 Exploring Russia s reentry into global capital markets at the dawn of the twenty first century Global Finance Local Control shows how economic integration became deeply entangled with a bare knuckled struggle for control over the vestiges of the Soviet empire Igor Logvinenko reveals how the post communist Russian economy became a full fledged participant in the international financial sector without significantly improving the local rule of law By the end of Vladimir Putin s second presidential term Russia was more integrated into the global financial system than at any point in the past However the country s longstanding deficiencies including widespread corruption administration of justice and an increasingly overbearing state continued unabated Scrutinizing stock market restrictions on foreign ownership during the first fifteen years of Russia s economic transition Logvinenko concludes that financial internationalization allowed local elites to raise capital from foreign investors while maintaining control over local assets They legitimized their wealth using Western institutions but they did so on their terms Global Finance Local Control delivers a somber lesson about the integration of emerging markets without strong domestic rule of law protections financial internationalization entrenches oligarchic capitalism and strengthens authoritarian regimes

### **Russian Bureaucracy** Karl

W. Ryavec, 2003-11-12 This unique study provides an original nitty gritty view of the true nature and operation of Russia's state bureaucracy from the imperial period to the present including the Putin presidency The only book length exploration of the problems and deficiencies of Russian bureaucracy since tsarist times this detailed work sheds important new light on Russian public administration an often overlooked but key barrier to Russian normalization and democratization **Slavic Review**, 2001 American quarterly of Soviet and East European studies varies *The Rise and Fall of Privatization in the Russian Oil Industry* Li-Chen Sim, 2008-10-24 This book is a study of the actors and institutions that shaped decision making on privatization in the Russian oil industry between 1992 and 2006 Li Chen analyzes the origins of privatization as a policy on a macro industry wide level as well as presenting three in depth case studies of privatization on a company level Russia 2010--and what it Means for the World Daniel Yergin, Thane Gustafson, 1993 2010 Russia disintegrates as its frontier regions rebel or drift into the orbit of neighboring countries 2010 Russia is invigorated by an economic chudo miracle that turns it into a thriving exemplar of the free market 2010 Russia becomes a grim military dictatorship bent on expansion This brilliant and visionary book which is based on a confidential report by the international consulting firm CERA offers several persuasively detailed scenarios of Russia's future Using the management technique of scenario planning and drawing on an extensive knowledge of Russia's political and economic history Daniel Yergin and Thane Gustafson have produced a study that is already shaping the investment strategies of major corporations and that will become an essential text in the policy debates about the next century Russia 2010 captures in a timely way the changes shaking Russia and the former Soviet Union after Communism The result is one of those rare books that not only predict the future but have the power to change it From the Trade Paperback edition **Russian Writers Since 1980** Marina Balina, Mark Naumovich Lipovet[skii], 2004 Focuses on the highly diverse and controversial literary and cultural life in Russia during the last twenty years of the past century Major shifts on the political scene influenced Russian literature of these past two decades Literature managed to find in the political and historical turbulence of this period a source of powerful artistic insight Russian-Eurasian Renaissance?
