Shows how to use gems in color therapy and to harmonize the chakras Gemstones have been used for both therapeutic and spiritual purposes since the beginning of time and in all traditions Used properly they can contribute to and accelerate healing through the practice of lithotherapy which uses gems and minerals to restore enzymatic functions and they can energize spiritual development Alternative medicines such as homeopathy have given prominence to the therapeutic character of certain minerals but the use of gemstones in expanding awareness or establishing a holistic energetic connection with the stone itself have scarcely been brought forward In this reclaiming of ancient wisdom Florence M gemont explores the many potent and beneficial dimensions of the mineral world Over 70 precious and semiprecious stones are inventoried as to their principal deposits therapeutic applications and zodiac correspondences Readers will discover which physical and emotional disorders can be relieved by using which minerals and with the application of chakra therapy which gemstones are indispensable to their spiritual health While not proposing that lithotherapy is a substitute for traditional allopathic treatment M gemont shows that it can be a powerful complement to it Additionally stones can act preventively energizing both our health and spiritual resources to a state of balance and attunement

The Magic of Crystals Ken and Joules Taylor, 2014-12-18 This book is a guide to your personal discovery of crystals The beauty and power of crystals and other stones have long been recognized from the ancient times of Tutankhamen to the modern masterpieces of Cartier and Fabergé From precious jewellery to the bricks and mortar that make up our homes they have now become an integral part of our lives Perhaps the huge upsurge of spiritual interest in crystals towards the end of the 20th century coincides with the significance many people attach to the dawn of a new millennium Or perhaps more people have become intrigued by the new and interesting crystals now available from all corners of the world The Magic of Crystals explores how these stones are the product of natural energy derived from natural forces such as ancient stars the sun the movement of the earth over thousands of years and the heat of molten rock It would almost seem wasteful to ignore them
