Captain James Cook and His Times Robin Fisher, 1979-01-01 Collection of papers by various authors evaluating Cook's career and accomplishments and the effect of his voyages on the European arts and sciences      **Captain James Cook and His Times** Hugh Johnston, 1979      **The Life of Captain James Cook** J. C. Beaglehole, 1992-04-01 The culmination of the life work of the most distinguished historian of Pacific exploration this lavishly illustrated biography places Cook in the context of his times and affirms his eminence in the history of maritime discovery      **Captain James Cook and His Times** Robin Fisher, Hugh J. M. Johnston, 1996      *Captain James Cook* Milton Meltzer, 2002 A biography of the British navigator who became a famous explorer of the Pacific Ocean      *Conference on Captain James Cook and His Times*, 1978      *The Life and Times of Captain James Cook* Andrew Kippis, 1788      Better Conceiv'd Than Describ'd Steve Ragnall, 2012-10-25 Our feelings could be better conceived than described wrote James King in February 1779 after unwrapping a bundle handed to him by a Hawaiian Priest and finding in it a human thigh the thigh of his late commander the renowned Captain James Cook Better Conceiv'd than Describ'd is the first full biography of James King the interesting though tragically short lived Royal Navy Officer in the reign of George III Captain James King's adventurous life saw him lay claim to Alaska in the name of George III fight as a frigate captain in the American War of Independence and test the marine chronometer that revolutionised navigation Starting in the small town of Clitheroe in Lancashire and taking us to the edges of the then known world on a great voyage of discovery this book shows the development of James King not only as a sailor but also as an astronomer sponsored by the Board of Longitude while also examining the death of Captain Cook at the hands of the Hawaiians With cameo appearances from Horatio Nelson the infamous William Blyth society artist Sir Joshua Reynolds diarist Fanny Burney and statesman Edmund Burke this is a who's who of Georgian society and shows the importance of patronage in the second half of the 18th century Better Conceiv'd than Describ'd is a must read for anyone interested in Captain Cook Georgian and maritime history      **Captain James Cook and the Search for Antarctica** James C. Hamilton, 2020-05-30 A fascinating account of the famous explorer's voyages through the southern Pacific and Antarctic Oceans based on firsthand journals and logbooks In the mid 18th century Captain James Cook undertook extraordinary voyages of navigation and maritime exploration to discover the Unknown Southern Continent He accomplished and encountered much during his three voyages through the uncharted southern waters yet his Antarctic voyages are perhaps the least studied of all his remarkable travels Now James Hamilton's gripping and scholarly study brings together the stories of Cook's Antarctic journeys into a single volume Using Cook's journals and the logbooks of officers who sailed with him this volume sets his Antarctic explorations within the context of his historic voyages Captain James Cook and the Search for Antarctica offers fascinating insight into Cook the seaman and explorer The exceptional navigational skills of Cook and his crew are vividly depicted as they survive foul weather across uncharted and inhospitable seas      **The Life of Captain**

**James Cook** Arthur Kitson, 2015-12-28 James Cook the Circumnavigator was a native of the district of Cleveland Yorkshire but of his ancestry there is now very little satisfactory information to be obtained Nichols in his Topographer and Genealogist suggests that James Cooke the celebrated mariner was probably of common origin with the Stockton Cookes His reason for the suggestion being that a branch of the family possessed a crayon portrait of some relation which was supposed to resemble the great discoverer He makes no explanation of the difference in spelling of the two names and admits that the sailor's family was said to come from Scotland Dr George Young certainly the most reliable authority on Cook's early years who published a Life in 1836 went to Whitby as Vicar about 1805 and claims to have obtained much information about his subject through intercourse with his relatives friends and acquaintances including one or two surviving school companions and appears to be satisfied that Cook was of Scotch extraction Dr George Johnston a very careful writer states in his Natural History of the Eastern Borders that in 1692 the father of James Thomson the author of The Seasons was minister of Ednam Roxburghshire and a man named John Cook was one of the Elders of the Kirk This John Cook married on the 19th January 1693 a woman named Jean Duncan by whom he had a son James baptised 4th March 1694 and this child Johnston positively asserts was afterwards the father of the future Captain Cook The dates of the marriage and baptism have been verified by the Reverend John Burleigh minister of Ednam and they agree with the probable date of the birth of Cook's father for he died in 1778 at the age of eighty five Owing to the loss of the church records for some years after 1698 Mr Burleigh is unable to trace when this James Cook left Ednam to better himself but he would take with him a testificate of church membership which might possibly but not probably still exist Attracted perhaps by the number of Scotch people who flocked into the north of Yorkshire to follow the alum trade then at its height James Cook settled down and married and the first positive information to be obtained is that he and his wife Grace her maiden name has so far escaped identification though she is known to have been a native of Cleveland resided for some time at Morton in the parish of Ormsby and here their eldest child John was born in January 1727 Dr Young says that James Cook had a superstition that his mother's farewell was prophetic of his marriage for her words were God send you Grace

**In Search of Captain Cook** Dan O'Sullivan, 2008-03-30 Captain James Cook was the greatest explorer of his age perhaps of any age He was a leader of men a master voyager who journeyed to unknown places a seeker of knowledge who commanded three demanding scientific expeditions He and his crews had encounters with peoples of the South Seas which could lead to mutual respect and trade but also to misunderstanding and violence Even before he died his exploits were widely admired But his death at the hands of Hawaiians turned him into a legendary figure a hero of the Enlightenment who was said to have brought civilization to the Pacific while giving up his own life in the process Yet despite everything that is known about Cook's life and many adventures the man himself remains shrouded in mystery With this book Dan O'Sullivan seeks to put this right and casts vivid light on Cook's character teasing out his personality from the pages of his own journals As well as an original and illuminating re-examination of Cook's

complex character this is also a vivid introduction to his life and times which is essential reading for anyone with an interest in this incomparable sea captain Captain James Cook and His Times ,1978\* Captain James Cook & His Times, 26-29 April, 1978 ,1978 **Pacific Places, Pacific Histories** Brij V. Lal,2004-04-30 Places matter We are shaped by them and in turn we shape them physically and imaginatively They connect us to time and locality perhaps even to life and death itself This is a book about places and how our engagement with them complex changing and varied forms and transforms our understanding of them of ourselves of the human condition itself Pacific Places Pacific Histories brings together leading Pacific Islands studies scholars and invites them to talk about the places they have inhabited and to contemplate the meaning of that experience The result is a veritable collage of reflections distinct and different from each other but moving in their collective impact Our engagement with places becomes daily more complicated with the transnational movement of peoples ideas technologies and cultures Global capitalism relentlessly alters established ethnographic assumptions about the meaning and importance of where we are and have been The essays presented here are about letting go learning and unlearning transgressing physical emotional and intellectual boundaries They are about personal quests narrated in distinctive voices raising particular concerns Together they contribute significantly to our understanding of how small islands in a vast ocean enable us to see ourselves and the world around us Captain James Cook, R. Review s 10 Best Books of the Year A BEST BOOK OF THE YEAR THE NEW YORK TIMES TIME THE ECONOMIST NPR THE NEW YORKER THE SMITHSONIAN AND KIRKUS REVIEWS In this masterly history Sides tracks the 18th century English naval officer James Cook s third and final voyage across the globe painting a vivid and propulsive portrait The New York Times Book Review On July 12th 1776 Captain James Cook already lionized as the greatest explorer in British history set off on his third voyage in his ship the HMS Resolution Two and a half years later on a beach on the island of Hawaii Cook was killed in a conflict with native Hawaiians How did Cook who was unique among captains for his respect for Indigenous peoples and cultures come to that fatal moment Hampton Sides bravura account of Cook s last journey both wrestles with Cook s legacy and provides a thrilling narrative of the titanic efforts and continual danger that characterized exploration in the 1700s Cook was renowned for his peerless seamanship his humane leadership and his dedication to science On previous expeditions Cook mapped huge swaths of the Pacific including the east coast of Australia and initiated first European contact with numerous peoples He treated his crew well and endeavored to learn about the societies he encountered with curiosity and without judgment Yet something was different on this last voyage Cook became mercurial resorting to the lash to enforce discipline and led his two vessels into danger time and again Uncharacteristically he ordered violent retaliation for perceived theft on the part of native peoples This may have had something to do with his secret orders which were to chart and claim lands before Britain s imperial rivals could and to discover the fabled Northwest Passage Whatever Cook s intentions his scientific efforts were the sharp edge of the colonial sword and the ultimate effects of first contact were catastrophic for Indigenous people around the world The tensions between Cook s overt and covert missions came to a head on the shores of Hawaii His first landing there was harmonious but when Cook returned after mapping the coast of the Pacific Northwest and Alaska his exploitative treatment of the Hawaiians led to the fatal encounter At once a ferociously paced story of adventure on the high seas and a searching examination of the complexities and consequences of the Age of Exploration THE WIDE WIDE SEA is a major work from one of our finest narrative nonfiction writers
