Enlightenment Orientalism in the American Mind, 1770-1807 Matthew H. Pangborn, 2018-09-07 This study engages with the emerging field of energy humanities to provide close readings of several early American oriental observer tales. The popular genre of orientalism offered Americans a means to critique new ideas of identity, history, and nationality accompanying protoindustrialization and a growing consumerism. The tales thus express a complex self-reflection during a time when America's exploitation of its energy resources and its engagement in a Franco-British world system was transforming the daily life of its citizens. The genre of the oriental observer, this study argues, offers intriguing glimpses of a nation becoming strange in the eyes of its own inhabitants. Captive Minds Avishai Margalit, Assaf Sharon, 2026 From philosophers Avishai Margalit and Assaf Sharon, an expansive yet approachable rethinking of manipulation and its role in politics, charting the deep structures of control that pose a grave threat to human freedom today. American Studies Encounters the Middle East Alex Lubin, Marwan M. Kraidy, 2016-08-24 In the field of American studies, attention is shifting to the long history of U.S. engagement with the Middle East, especially in the aftermath of war in Iraq and in the context of recent Arab uprisings in protest against economic inequality, social discrimination, and political repression. Here Alex Lubin and Marwan M. Kraidy curate a new collection of essays that focuses on the cultural politics of America's entanglement with the Middle East and North Africa, making a crucial intervention in the growing subfield of transnational American studies. Featuring a diverse list of contributors from the United States, the Arab world, and beyond, American Studies Encounters the Middle East analyzes Arab-American relations by looking at the War on Terror, pop culture, and the influence of the American hegemony in a time of revolution. Contributors include Christina Moreno Almeida, Ashley Dawson, Brian T. Edwards, Waleed Hazbun, Craig Jones, Osamah Khalil Mounira, Soliman Helga Tawil, Soury Judith E. Tucker, Adam John Waterman, and Rayya El Zein. **Bowker's Guide to Characters in Fiction 2007**, 2008-02 *The Publishers Weekly*, 1930 **The National Union Catalog, Pre-1956 Imprints**, 1976 *A Check List of the Proust Holdings at the University of Illinois Library at Urbana-Champaign* University of Illinois at Urbana-Champaign. Murison, 2022-09-20 Recent legal history in the United States reveals a hardening tendency to treat religious freedom and sexual and reproductive freedom as competing, even opposing, claims on public life. They are united though by the fact that both are rooted in our culture's understanding of privacy. *Faith in Exposure* shows

how over the course of the nineteenth century privacy came to encompass such contradictions both underpinning the right to sexual and reproductive rights but also undermining them in the name of religious freedom Drawing on the interdisciplinary field of secular studies Faith in Exposure brings a postsecular orientation to the historical emergence of modern privacy The book explains this emergence through two interlocking stories The first examines the legal and cultural connection of religion with the private sphere showing how privacy became a moral concept that informs how we debate the right to be shielded from state interference as well as who will be afforded or denied this protection This conflation of religion with privacy gave rise the book argues to a secular sensibility that was especially invested in authenticity and the exposure of hypocrisy in others The second story examines the development of this secular sensibility of privacy through nineteenth century novels The preoccupation of the novel form with private life and especially its dependence on revelations of private desire and sexual secrets made it the perfect vehicle for suggesting that exposure might be synonymous with morality itself Each chapter places key authors into wider contexts of popular fiction and periodical press debates From fears over religious infidelity to controversies over what constituted a modern marriage and conspiracy theories about abolitionists these were the contests Justine S Murison argues that helped privacy emerge as both a sensibility and a right in modern secular America

Reader's Adviser and Bookman's Manual ,1948 **Health and Sickness in the Early American Novel** Maureen Tuthill,2016-09-26 This book is a study of depictions of health and sickness in the early American novel 1787 1808 These texts reveal a troubling tension between the impulse toward social affection that built cohesion in the nation and the pursuit of self interest that was considered central to the emerging liberalism of the new Republic Good health is depicted as an extremely positive social value almost an a priori condition of membership in the community Characters who have the glow of health tend to enjoy wealth and prestige those who become sick are burdened by poverty and debt or have made bad decisions that have jeopardized their status Bodies that waste away faint or literally disappear off of the pages of America s first fiction are resisting the conditions that ail them as they plead for their right to exist they draw attention to the injustice apathy and greed that afflict them **Author - Title Catalog** University of California, Berkeley.
