Shireen K. Lewis

Black Identity:

Shades of Black William Cross, 1991-12-18 In this controversial and path breaking book William E Cross Jr presents the diversity and texture that have always been the hallmark of Black psychology *Shades of Black* explodes the myth that self hatred is the dominant theme in Black identity With a thorough review of social scientific literature on Negro identity conducted between 1936 and 1967 Cross demonstrates that important themes of mental health and adaptive strength have been frequently overlooked by scholars both Black and White obsessed with proving Black pathology He examines the Black Power Movement and critics who credit this era with a comprehensive change in Black self esteem Allowing for a considerable gain in group identity among Black people during this period Cross shows how before this working and middle class and even many poor Black families were able to offer their progeny a legacy of mental health and personal strength that sustained them in their struggles for political and cultural consensus Author note William E Cross Jr is a psychologist and Associate Professor in the Africana Studies and Research Center of Cornell University

Black Identity Dexter B. Gordon, 2003 *African American Identity* Jas M. Sullivan, Ashraf Esmail, 2012-04-26 Jas M Sullivan and Ashraf M Esmail's *African American Identity: Racial and Cultural Dimensions of the Black Experience* is a collection which makes use of multiple perspectives across the social sciences to address complex issues of race and identity The contributors tackle questions about what African American racial identity means how we may go about quantifying it what the factors are in shaping identity development and what effects racial identity has on psychological political educational and health related behavior *African American Identity* aims to continue the conversation rather than provide a beginning or an end It is an in depth study which uses quantitative qualitative and mixed methods to explore the relationship between racial identity and psychological well being effects on parents and children physical health and related educational behavior From these vantage points Sullivan and Esmail provide a unique opportunity to further our understanding extend our knowledge and continue the debate

Black Identity and Black Protest in the Antebellum North Patrick Rael, 2003-01-14 Frederick Douglass Sojourner Truth Martin Delany these figures stand out in the annals of black protest for their vital antislavery efforts But what of the rest of their generation the thousands of other free blacks in the North Patrick Rael explores the tradition of protest and sense of racial identity forged by both famous and lesser known black leaders in antebellum America and illuminates the ideas that united these activists across a wide array of divisions In so doing he reveals the roots of the arguments that still resound in the struggle for justice today Mining sources that include newspapers and pamphlets of the black national press speeches and sermons slave narratives and personal memoirs Rael recovers the voices of an extraordinary range of black leaders in the first half of the nineteenth century He traces how these activists constructed a black American identity through their participation in the discourse of the public sphere and how this identity in turn informed their critiques of a nation predicated on freedom but devoted to white supremacy His analysis explains how their place in the industrializing urbanizing

antebellum North offered black leaders a unique opportunity to smooth over class and other tensions among themselves and successfully galvanize the race against slavery

Black History and Black Identity William D. Wright, 2002-02-28 This study contends that historians and intellectuals failed to understand the difference between race and ethnicity which has in turn impaired their ability to understand who Black people are in America The author argues that Black Americans are to be distinguished from other categories of black people in the country black Africans West Indians or Hispanics While Black people are members of the black race as are other groups of people they are a distinct ethnic group of that race This conceptual failure has hampered the ability of historians to define Black experience in America and to study it in the most accurate authentic and realistic manner possible This confusing situation is aggravated further by the fact that many scholars tend to describe Black people in an arbitrary manner as Africans African Americans Afro Americans black or Black which is insufficient for precision They sometimes downplay the historical evidence regarding African identity and the identity of Blacks in America Wright offers a new methodological basis for undertaking Black history namely the framework of historical sociology He argues that this approach will produce a more useful history for Black people and others in America

Race, Culture, and Identity Shireen K. Lewis, 2006-01-01 In this groundbreaking book Shireen Lewis gives a comprehensive analysis of the literary and theoretical discourse on race culture and identity by Francophone and Caribbean writers beginning in the early part of the twentieth century and continuing into the dawn of the new millennium Examining the works of Patrick Chamoiseau Rapha l Confiant Aim C saire L opold Senghor L on Damas and Paulette Nardal Lewis traces a move away from the preoccupation with African origins and racial and cultural purity toward concerns of hybridity and fragmentation in the New World or Diasporic space In addition to exploring how this shift parallels the larger debate around modernism and postmodernism Lewis makes a significant contribution by arguing for the inclusion of Martinican intellectual Paulette Nardal and other women into the canon as significant contributors to the birth of modern black Francophone literature

Black Identity Dexter B. Gordon, 2006 Exploring the role of rhetoric in African American identity and political discourse Dexter B Gordon s *Black Identity Rhetoric Ideology and Nineteenth Century Black Nationalism* explores the problem of racial alienation and the importance of rhetoric in the formation of black identity in the United States Faced with alienation and disenfranchisement as a part of their daily experience African Americans developed collective practices of empowerment that cohere as a constitutive rhetoric of black ideology Exploring the origins of that rhetoric Gordon reveals how the ideology of black nationalism functions in contemporary African American political discourse Rooting his study in the words and works of nineteenth century black abolitionists such as Maria Stewart David Walker and Henry Garnet Gordon explores the rapprochement between rhetorical theory race alienation and the role of public memory in identity formation He argues that abolitionists used language in their speeches pamphlets letters petitions and broadsides that established black identity in ways that would foster liberation and empowerment The arguments presented here constitute the only sustained

treatment of nineteenth century black activists from a rhetorical perspective Gordon demonstrates the pivotal role of rhetoric in African American efforts to create a viable public voice Understanding nineteenth century black alienation and its intersection with twentieth century racism is crucial to understanding the continued sense of alienation that African Americans express about their American experience Gordon explains how the ideology of black nationalism disciplines and describes African American life for its own ends exposing a central piece of the ideological struggle for the soul of America The book is both a platform for further discussion and an invitation for more voices to join the discourse as we search for ways to comprehend the sense of alienation experienced and expressed by African Americans in contemporary society

Meaning-Making, Internalized Racism, and African American Identity Jas M. Sullivan, William E. Cross Jr., 2016-09-07 Focusing on the broad range of attitudes Black people employ to make sense of their Blackness this volume offers the latest research on racial identity The first section explores meaning making or the importance of holding one type of racial cultural identity as compared to another It looks at a wide range of topics including stereotypes spirituality appearance gender and intersectionalities masculinity and more The second section examines the different expressions of internalized racism that arise when the pressure of oppression is too great and includes such topics as identity orientations self esteem colorism and linked fate Grounded in psychology the research presented here makes the case for understanding Black identity as wide ranging in content subject to multiple interpretations and linked to both positive mental health as well as varied forms of internalized racism

Male black identity in selected works by Langston Hughes Sarah Wienand, 2014-03-24 Bachelor Thesis from the year 2013 in the subject English Language and Literature Studies Literature grade 2.0 University of Wuppertal language English abstract Throughout many years African Americans have been struggling in defining and constructing their identity especially male African Americans had problems to build up self esteem and to reassure their cultural masculinity which was undermined by white

men Not only does history confirm this struggle but so does literature In literature many different aspects about male black identity and their struggle for identity can be found However one of the most important authors in this context is Langston Hughes In his works he focuses on the urban life of African Americans and the problems they had to face because of oppression and racism evoked by white Americans Furthermore Hughes wanted to record and interpret the lives of the common black folk their thoughts and habits and dreams their struggle for political freedom and economic well being Jimmie 1 By doing so in his writings he took this struggle for and negotiation of racial identity to another level in developing a unique form of expression In this thesis I will concentrate on three major works by Langston Hughes *Mulatto* *A Tragedy of the Deep South* *Simple speaks his mind* and *Not without laughter* All three texts display emotional conflicts and the struggle for identity of African American men with simplicity and depth Tidwell 3 Furthermore all three protagonists have a rather low status in society which contributes according to Langston Hughes to their authenticity since they are the ones who represent the African American and thus their pursuit of identity of Tidwell 3 Moreover I am going to begin with a general overview of the male black identity and the struggle for an African American male perspective in a culture which is dominated by white American men Afterwards I will transfer this concept of male black identity to the three selected works by Langston Hughes and analyse in how far these texts engage in constructing their main characters in similar terms The next significant aspect will be concerned with the question in how far education is perceived as a part of this male black identity and in how far it supports the development of an African American male identity When having discussed the influence of education in the protagonists male black identity development I am going to turn to the topic of identity crisis

Black Mosaic Candis Watts Smith, 2014-10-24 Historically Black Americans have easily found common ground on political social and economic goals Yet there are signs of increasing variety of opinion among Blacks in the United States due in large part to the influx of Afro Latino Afro Caribbean and African immigrants to the United States In fact the very definition of African American as well as who can self identify as Black is becoming more ambiguous Should we expect African Americans shared sense of group identity and high sense of group consciousness to endure as ethnic diversity among the population increases In *Black Mosaic* Candis Watts Smith addresses the effects of this dynamic demographic change on Black identity and Black politics Smith explores the numerous ways in which the expanding and rapidly changing demographics of Black communities in the United States call into question the very foundations of political identity that has united African Americans for generations African Americans political attitudes and behaviors have evolved due to their historical experiences with American Politics and American racism Will Black newcomers recognize the inconsistencies between the American creed and American reality in the same way as those who have been in the U S for several generations If so how might this recognition influence Black immigrants political attitudes and behaviors Will race be a site of coalition between Black immigrants and African Americans In addition to face to face interviews with African Americans and Black immigrants Smith employs nationally representative

survey data to examine these shifts in the attitudes of Black Americans Filling a significant gap in the political science literature to date Black Mosaic is a groundbreaking study about the state of race identity and politics in an ever changing America

Yes, I Am, who I Am Michael Eric Owens,2009 YES I AM Who I AM is the result of much reading research and deep reflection Part history part memoir part meditation it is ultimately a hopefilled summons to Blacks to embrace and claim their full identity as Americans Michael Owens critique of African American as identity is sure to provoke and to raise further questions as the reader follows Owens journey of discovery towards a usable Black identity for contemporary America Laura Gellott Professor of History University of Wisconsin Parkside Michael Owens as an agent of truth confronts the Black identity crisis with courage and dignity YES I AM Who I AM is a thoughtful expos that ventures beyond a historical account of the Black experience in America to offer a solution a timely read for anyone who calls themselves an American Heather Frederick Professor of Psychology Northcentral University Becoming who you are has turned out to be an enormous challenge for African American men and women in the face of a world that wants everyone to be the same YES I AM Who I AM truly focuses on new steps ideas and approaches that one might consider to shift gears in becoming fully present with who you are and with who you can become Owens has done it

Beyond Black Kerry Ann Rockquemore,David L. Brunsma,2007-12-14 Beyond Black is a groundbreaking study of the dynamic meaning of racial identity for multiracial people in post Civil Rights America Kerry Ann Rockquemore and David Brunsma document the wide range of racial identities that individuals with one Black and one White parent develop and they provide a incisive sociological explanation of the choices facing those who are multiracial Stemming from the controversy of the 2000 Census and whether an additional multiracial category should be added to the survey this

second edition of *Beyond Black* uses both survey data and interviews of multiracial young adults to explore the contemporary dynamics of racial identity formation. The authors raise even larger social and political questions posed by expanding racial categorization on the U.S. Census.

Deliberative Democracy and the Plural Polity Michael Rabinder James, 2004. In this pathbreaking work, the author integrates questions of justice and stability through a model of deliberative democracy in the plural polity. *Deliberative Democracy and the Plural Polity* provides a realistic but critical reform agenda that can animate struggles for justice in an enormously diverse world.

Post Black Ytasha L. Womack, 2010-01-01. As a young journalist covering black life at large, author Ytasha L. Womack was caught unaware when she found herself straddling black culture's rarely acknowledged generation gaps and cultural divides. Traditional images show blacks unified culturally, politically, and socially, united by race at venues such as churches and community meetings. But in the post-black era, even though individuals define themselves first as black, they do not necessarily define themselves by tradition as much as by personal interests, points of view, and lifestyle.

In *Post Black: How a New Generation Is Redefining African American Identity*, Womack takes a fresh look at the dynamics shaping the lives of contemporary African Americans. Although grateful to generations that have paved the way, many cannot relate to the rhetoric of pundits who speak as ambassadors of black life any more than they see themselves in exaggerated hip-hop images. Combining interviews, opinions of experts, and extensive research, *Post Black* will open the eyes of some, validate the lives of others, and provide a realistic picture of the expanding community.

Black Identity Viewed from a Barber's Chair William E. Cross, 2021-06-25. The barbershop bias. Nigrescence revisited. The models of Nigrescence, part two: issues of double consciousness and the performance of identity. Interrogating the deficit perspective: slavery, trauma, and resilience.

Culture, Identity and Politics T. O. Ranger, Yunus Samad, Ossie W. Stuart, 1996.

Dimensions of Blackness Jas M. Sullivan, Jonathan Winburn, William E. Cross Jr., 2018-10-09. A multidimensional perspective captures the complexities of African American racial identity. While the dynamics of racial oppression limit the range of attitudes blacks may construct and hold, their basic humanity introduces additional attitudinal variance that is nearly boundless. Rather than claim it is possible to conceptualize and measure every iteration of blackness, modern social theorists such as Robert Sellers and William Cross Jr. contend that one should systematically sample the unmanageable range of different identity frames found among blacks. In *Dimensions of Blackness*, the authors suggest there is no single, solitary way to express black racial identity. They move away from blackness as binary and instead reveal what happens when black racial identity is conceptualized with difference of opinion. Using a multidimensional perspective, this book explores whether black racial identity differences among blacks influence political attitudes and behavior.
