## **Black Hebrew Murder:**

Black Hebrew Israelites Michael T. Miller, 2024-03-20 The Black Hebrew Israelite movement claims that African Americans are descendants of the Ancient Israelites and has slowly become a significant force in African American religion This Element provides a general overview of the BHI movement its diverse history ies ideologies and practices The Element shows how different factions and trends have taken the forefront at different periods over its 140 year history leading to the current situation where diverse iterations of the movement exist alongside each other sharing some core concepts while differing widely In particular the questions of how and why BHI has become a potent and attractive movement in recent years are addressed arguing that it fulfils a specific religious need to do with identity and teleology and represents a new and persistent form of Abrahamic religion

**Race and Religion Among the Chosen People of Crown Heights** Henry Goldschmidt, 2006-09-01 In August of 1991 the Brooklyn neighborhood of Crown Heights was engulfed in violence following the deaths of Gavin Cato and Yankel Rosenbaum a West Indian boy struck by a car in the motorcade of a Hasidic spiritual leader and an orthodox Jew stabbed by a Black teenager The ensuing unrest thrust the tensions between the Lubavitch Hasidic community and their Afro Caribbean and African American neighbors into the media spotlight spurring local and national debates on diversity and multiculturalism Crown Heights became a symbol of racial and religious division Yet few have paused to examine the nature of Black Jewish difference in Crown Heights or to question the flawed assumptions about race and religion that shape the politics and perceptions of conflict in the community In *Race and Religion among the Chosen Peoples of Crown Heights* Henry Goldschmidt explores the everyday realities of difference in Crown Heights Drawing on two years of fieldwork and interviews he argues that identity formation is particularly complex in Crown Heights because the neighborhood s communities envision the conflict in remarkably diverse ways Lubavitch Hasidic Jews tend to describe it as a religious difference between Jews and Gentiles while their Afro Caribbean and African American neighbors usually define it as a racial difference between Blacks and Whites These tangled definitions are further complicated by government agencies who address the issue as a matter of culture and by the Lubavitch Hasidic belief a belief shared with a surprising number of their neighbors that they are a chosen people whose identity transcends the constraints of the social world The efforts of the Lubavitch Hasidic community to live as a divinely chosen people in a diverse Brooklyn neighborhood where collective identities are generally defined in terms of race illuminate the limits of American multiculturalism a concept that claims to celebrate diversity yet only accommodates variations of certain kinds Taking the history of conflict in Crown Heights as an invitation to reimagine our shared social world Goldschmidt interrogates the boundaries of race and religion and works to create space in American society for radical forms of cultural difference

Hutchinson,2010 Although religious innovation in America has historically been the norm rather than the exception mainstream Americans have often viewed new religious movements with suspicion and occasionally with outright alarm The question motivating many studies of new religious movements has been oewhy would someone join these religions In Antiquity and Social Reform Dawn Hutchinson offers at least one answer to this often repeated query She argues that followers of new religious movements in the 1960s 1980s specifically the Unification Church Feminist Wicca and the Nation of Yahweh considered these religions to be legitimate because they offered members a personal religious experience a connection to an ancient tradition and agency in improving their world Utilizing an historical approach Antiquity and Social Reform considers the conversion narratives of adherents and primary literature of the formative years of these movements which demonstrates that the religious experiences of the adherents and a resonance with the goals of these religions propelled members into social action
