From the Life and Work of C.G. Jung Aniela Jaffé, 1989 Aniela Jaffé was given permission to quote from Jung's highly personal Red Book and she does so in her essay on Jung's creative phases Shortly before her death the author also updated and expanded her long famous article addressing the National Socialism accusations leveled against Jung Sir Laurens van der Post provides a sharp echo in his Epilogue written especially for this edition The Basic Writings of C. **Spiritualism and the Foundations of C. G. Jung's Psychology** F. X. Charet, 2015-04-17 Charet uncovers some of the reasons why Jung's psychology finds itself living between science and religion He demonstrates that Jung's early life was influenced by the experiences beliefs and ideas that characterized Spiritualism and that arose out of the entangled relationship that existed between science and religion in the late nineteenth century Spiritualism following its inception in 1848 became a movement that claimed to be a scientific religion and whose controlling belief was that the human personality survived death and could be reached through a medium in trance The author shows that Jung's early experiences and preoccupation with Spiritualism influenced his later ideas of the autonomy personification and quasi metaphysical nature of the archetype the central concept and one of the foundations upon which he built his psychology

*C.G. Jung* C. G. Jung, 1973-05-21 Carl Gustav Jung the great Swiss psychologist who died in 1961 in his eighty sixth year was a profound thinker of extraordinary creativity In the course of his medical practice he reflected deeply on human nature and human problems and his prolific writings bear witness to his great wisdom and insight For this completely revised edition selections from publications of the years 1945 1961 the last fruitful years of Jung s life have been added and the book has been reset in a new compact format The selections are arranged thematically under four main headings The Nature and Activity of the Psyche Man in His Relation to Others The World of Values and On Ultimate Things Jung s reflections frequently have a penetrating relevance to today s and tomorrow s problems On prejudice Our unwillingness to see our own faults and the projection of them is the beginning of most quarrels and is the strongest guarantee that injustice animosity and persecution are not ready to die out On sex We are not yet far enough advanced to distinguish between moral and immoral behavior in the realm of free sexual activity On religion No one can know what the ultimate things are We must therefore take them as we experience them And if such experience helps to make life healthier more beautiful more complete and more satisfactory to yourself and to those you love you may safely say This was the grace of God The Red Book: Reflections on C.G. Jung's Liber Novus Thomas Kirsch, George Hogenson, 2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of

The Red Book and to debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung s Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung s Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung s account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians *Selected Letters of C.G. Jung, 1909-1961* C. G. **Letters of C. G. Jung** C.G Jung,2015-06-05 In May 1956 in his eighty second year Jung first discussed with Gerhard Adler the question of the publication of his letters Over many years Jung had often used the medium of letters to communicate his ideas to others and to clarify the interpretation of his work quite apart from answering people who approached him with genuine problems of their own and simply corresponding with friends and colleagues Many of his letters thus contain new creative ideas and provide a running commentary on his work From some 1 600 letters written by Jung between the years 1906 1961 the editors have selected over 1 000 Volume 2 contains 460 letters written between 1951 and 1961 during the last years of Jung s life when he was in contact with many people whose names are familiar to the English reader These include Mircea Eliade R F C Hull Ernest Jones Herbert Read J B Rhine Upton Sinclair and Fr Victor White Volume 2 also contains an addenda with sixteen letters from the period 1915 1946 and a subject index to both volumes The annotation throughout is detailed and authoritative *C.G. Jung Speaking* C. G. Jung,1987-02-21 A collection of journalistic interviews which span Jung s lifetime This book captures his personality and spirit in more than 50 accounts of talks and meetings with him They range from transcripts of interviews for radio television and film to memoirs written by notable personalities *C. G. Jung Speaking* Carl Gustav Jung,William McGuire,Richard Francis Carrington Hull,1980

Psyche and Symbol Carl Gustav Jung,1958 The archetypes of human experience which derive from man s deepest

unconscious mind and reveal themselves in the universal symbols of art and religion as well as in the individual symbolic creations of particular people are for C G Jung the key to the cure of souls the cornerstone of his therapeutic work The function and origin of symbols are explained in this volume The reader will find here not only a general orientation to Jung s point of view in its most recent formulation but extensive studies of the symbolic process and its integrating function in human psychology as it is reflected in the characteristic spiritual products of Europe and Asia An Illustrated Biography of C.G. Jung Gerhard Wehr,1989 *On Theology and Psychology* C. G. Jung,Adolf Keller,2020-07-28 Jung s correspondence with one of the twentieth century s leading theologians and ecumenicists On Theology and Psychology brings together C G Jung s correspondence with Adolf Keller a celebrated Protestant theologian who was one of the pioneers of the modern ecumenical movement and one of the first religious leaders to become interested in analytical psychology Their relationship spanned half a century and for many years Keller was the only major religious leader to align himself with Jung and his ideas Both men shared a lifelong engagement with questions of faith and each grappled with God in his own distinctive way Presented here in English for the first time are letters that provide a rare look at Jung in dialogue with a theologian Spanning some fifty years these letters reveal an extended intellectual and spiritual discourse between two very different men as they exchange views on the nature of the divine the compatibility of Jungian psychology and Christianity the interpretation of the Bible and figures such as Jesus and Job and the phenomenon of National Socialism Although Keller was powerfully attracted to Jung s ideas his correspondence with the famed psychiatrist demonstrates that he avoided discipleship Both men struggled with essential questions about human existence spirituality and well being and both sought common ground where the concerns of psychologists and theologians converge Featuring an illuminating introduction by Marianne Jehle Wildberger On Theology and Psychology offers incomparable insights into the development of Jung s views on theology and religion and a unique window into a spiritual and intellectual friendship unlike any other **The Angel in Annunciation and Synchronicity** Tammy L. Montgomery,2013-02-21 Fear grips those who doubt that their existence has meaning and the prevailing notion that humans are situated on a dot in the middle of a dark cold universe leaves people shivering in cosmic insignificance Many would argue that science and technology have separated individuals from God while others would say that people have lost their faith and some would assert that God is dead Many simply do not know what to believe Today s self help industry is a testament to the search for meaning in an age of uncertainty and faltering religious structures The truth is that technology and science now answer many of the questions that used to be left to God This development has confounded people s ability to integrate what is known today with what was once thought The disparity between past and present beliefs may be observed in the concept of the angel There are many who claim that any lingering belief in angels is merely the residue of imaginary or wishful thinking and there are others who hold that angels wings halos and harps literally exist How is one to reconcile such contradictory beliefs C G Jung s theory of synchronicity meaningful coincidence provides a

vehicle for the exploration and possible reconciliation of such questions Rather than echoing the skeptic who says angels cannot exist or the religious enthusiast who affirms their immanence one might reframe the entire discussion Like the biblical concept of annunciation in which an angel delivers a heavenly message to an earthly individual synchronicity defines the moment at which the eternal touches the temporal
