The Journals of Captain Cook James Cook, 2020-12-08 Depicted by the man himself *The Journals of James Cook* is an intimate first hand account providing an uncensored and reliable narrative of adventures spanning across the globe. *The Journals of James Cook* depict three of Captain James Cook's most glorious expeditions starting in 1768 and leading to Cook's tragic death in 1779. Having ventured all over the Pacific, Cook encountered lands not yet charted by the British. Though his discoveries and maps inadvertently led to British colonization, Cook held a deep respect for the native people he encountered. He recorded their practices and wrote of them fondly. Cook even befriended some of the native people he encountered, including a Tahitian man who, after hearing of Cook's homeland, wanted to visit it as well. Per the man's request, Cook sailed him to Britain where the man stayed until he and Cook sailed back to Tahiti three years later. After charting Australia and the whole coast of New Zealand, Cook was involved in a plot to kidnap a Hawaiian monarch and ransom them in order to recover stolen property. He was killed during this expedition, leaving behind a legacy of a detailed description of the Pacific Ocean and

its coasts James Cook's expeditions around the world and his detailed and innovative work as a cartographer inspired advancements in scientific, medical, historical, and geological fields. His influence has also reached the literary world, inspiring novel series and characters including the infamous Captain Hook. Exuding ambition, courage, and confidence, The Journals of James Cook provide a privileged peek into the travels and accomplishments of an adventurous and invaluable man. Packed with wonder but free of imperialistic arrogance, The Journals of James Cook serve as a valuable and intriguing primary source of a time when places in the world were yet to be mapped. Now presented in an easy-to-read font and redesigned with a stunning new cover, James Cook: The Journals of James Cook is accommodating to contemporary readers, providing a fresh version of the esteemed literary work while preserving its wonders and adventures.

On January 17th 1779 the HMS Resolution under the command of Captain James Cook and the HMS Discovery under the command of Captain Charles Clerke anchored for the first time in a shallow bay on the west of Hawaii which the natives called Kealahou Bay. Immediately the ships were surrounded by a huge crowd of Indians, either swimming around them or circling them in canoes. Cook describes the situation in his journal: "I have nowhere in this Sea seen such a number of people assembled at one place besides those in the canoes. All the shore of the bay was covered with people and hundreds were swimming about the ships like shoals of fish. Due to a lack of understanding the natives' language, Cook and his crew had no chance of realizing that all those people had gathered not only to greet strangers from across the ocean but to celebrate the arrival of their god Lono, who was believed to have sailed across the ocean in search of his wife in time immemorial and was due to return. In his last journal entry, Cook writes to enrich our voyage with a discovery which though the last seemed in every respect to be the most important that had hitherto been made by Europeans throughout the extent of the Pacific Ocean."

[The Last Voyage of Captain James Cook](#) Richard Hough, 1979 Recreates in detail Captain Cook's third and last great voyage of discovery, delineating the paradoxical characters of the officers of the two ships, many exotic ports of call, and the series of mishaps, follies, and misunderstandings that led to Cook's murder.
