Colonial Modernities Ambalika Guha, 2017-07-20 The subject of medicalisation of childbirth in colonial India has so far been identified with three major themes the attempt to reform or sanitise the site of birthing practices establishing lying in hospitals and replacing traditional birth attendants with trained midwives and qualified female doctors This book part of the series *The Social History of Health and Medicine in South Asia* looks at the interactions between childbirth and midwifery practices and colonial modernities Taking eastern India as a case study and related research from other areas with hard empirical data from local government bodies municipal corporations and district boards it goes beyond the conventional narrative to show how the late nineteenth century initiatives to reform birthing practices were essentially a modernist response of the western educated colonised middle class to the colonial critique of Indian sociocultural codes It provides a perceptive historical analysis of how institutionalisation of midwifery was shaped by the debates on the women's question nationalism and colonial public health policies all intersecting in the interwar years The study traces the beginning of medicalisation of childbirth the professionalisation of obstetrics the agency of male doctors inclusion of midwifery as an academic subject in medical colleges and consequences of maternal care and infant welfare This book will greatly interest scholars and researchers in history social medicine public policy gender studies and South Asian studies

Exercise in the Female Life-Cycle in Britain, 1930-1970 Eilidh Macrae, 2016-07-09 This book examines how adolescence menstruation and pregnancy were experienced or managed by active women in Britain between 1930 and 1970 and how their athletic life styles interacted with their working lives marriage and motherhood It explores the gendered barriers which have influenced women's sporting experiences Women's lives have always been shaped by the socially and physically constructed life cycle and this is all the more apparent when we look at female exercise Even self proclaimed sporty women have had to negotiate obstacles at various stages of their lives to try and maintain their athletic identity So how did women overcome these obstacles to gain access to exercise in a time when the sportswoman was not an image society was wholly comfortable with Oral history testimony and extensive archival research show how the physically and socially constructed female life cycle shaped women's experiences of exercise and sport throughout these decades
