#### **Digital Storytelling** Leah Henrickson, 2025-11-10

We tell stories to make sense of chaos We come to understand the world and our places in it through these stories And we share these stories with others finding points of connection Storytelling is part of who we are and with digital media its more accessible and adaptable than it has ever been Since emerging in the 1990s the field of digital storytelling has centred on a single model of story creation that remains in widespread use today However digital media environments and communities have changed Its time for the field of digital storytelling to change with them Digital Storytelling provides a new cutting edge introduction to this topic It sets an alternative agenda for the field one that regards digital storytelling as characterised not by any particular kind of method or output but by ongoing processes of meaning making in digital environments Weaving historical references throughout this textbook illustrates the interconnectedness of media individual experiences and society and culture It shows that digital storytelling is a particular context of storytelling that has emerged from a confluence of traditions and technologies forever in flux This original and landmark textbook is required reading for students of media communications sociology cultural studies and English as well as for anyone looking to understand the transformative power of digital storytelling in all of its forms

#### AI Impacts on Branded Entertainment and Advertising Miguélez-Juan,

Blanca, Rebollo-Bueno, Sara, 2025-05-01 Connecting with the public especially the younger generations is challenging for brands and agencies unless they leverage new communication technologies to create engagement and foster more critical and active audiences Consumers often overwhelmed by messages and products no longer need to avoid intrusive advertising Instead in this new advertising paradigm they seek out brands and their advertisements to form a positive emotional

connection This intimate bond benefits both the brand and the consumer acting as a loudspeaker for the brand's values and message In this context creativity and professional creatives are reaffirmed as the key differentiators for modern advertising agencies These agencies need well trained professionals who are not afraid to use new communication methods including entertainment and emerging technologies like AI which despite being unregulated are here to stay AI Impacts on Branded Entertainment and Advertising explores the scientific foundations on the use of AI and branded content understanding it as an essential tandem for the understanding of the advertising and social reality Covering topics such as non conventional media influencer marketing and avatar this book is an excellent resource for marketing directors brand creators communication professionals computer developers corporate professionals researchers scholars professionals academicians and more
