Cases In Financial Accounting:

Cases in Financial Accounting Alan John Richardson, 2006 The failure of Enron and other accounting scandals ushered in a new era of accountability in financial accounting *Cases in Financial Accounting A Principles Based Approach* encourages thoughtful managers and accounting practitioners for the future to exercise principled judgement It exposes the substance beneath the form of business transactions and challenges tomorrow's decision makers to cope with new transactions and changing circumstances in an appropriate way *Cases in Financial Accounting A Principles Based Approach* can be used with equal success in the introductory financial accounting course at the undergraduate or MBA level Its approach requires the development and use of critical thinking skills and the application of a sound knowledge of what financial accounting is trying to accomplish in society This case book provides realistic snapshots of business practice Many of the cases are based on situations that were covered in the financial press and represent decisions that were faced by managers auditors and investors often with severe consequences The cases represent a range of businesses including small family owned enterprises medium sized businesses and large corporations The range of situations covered provides a realistic reflection of the environment that will be faced by the graduates of top business and accounting programs

Cases in Financial Reporting D. Eric Hirst, Mary Lea McAnally, 2005 For intermediate and financial accounting courses at the MBA and undergraduate level or a supplement to financial statement analysis texts This collection of financial accounting cases is designed to help students become financial statement users Each case utilizes financial statement information balance sheet income statement statement of cash flow and or footnotes and a number of topical questions Students use the financial statement information to infer and interpret the economic events underlying the numbers Related articles taken from business publications accompany some cases and information from the articles is incorporated into the case question material Also available the Pearson Custom Case Program

Financial Accounting Cases Camillo Lento, Jo-Anne Ryan, 2019-09-16 Canadian Financial Accounting Cases 3rd edition has been developed to bridge the gap between the foundational concepts and the real world Students are introduced to the case study methodology for financial accounting which focuses on identifying the issue understanding implications developing alternatives and making recommendations Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues The cases range from introductory level to advanced level and can be used as assignments exams or for in class discussions The cases have been developed using IFRS Part I ASPE Part II or ASNPO Part III as the accounting frameworks providing students with exposure to many different types of organizational structures and have been linked to the CPA Competency Map Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments

Financial Accounting Theory and Analysis Richard G. Schroeder, Myrtle W. Clark, Jack M. Cathey, 2019-10-01 *Financial Accounting Theory and Analysis Text and Cases* 13th Edition illustrates how

accounting standards impact the daily decisions of accounting professionals This authoritative textbook shows how accounting theory explains why particular companies select certain accounting methods over others and predicts the attributes of firms by analyzing their accounting methods The text examines empirical research relevant to various theories of accounting and the uses of accounting information including the fundamental analysis model the efficient markets hypothesis the behavioral finance model the positive accounting theory model the human information processing model and the value creation model Enabling students to develop an informed perspective on accounting theory the text reviews the development and current state of accounting theory and summarizes current disclosure requirements for various financial statement items The new edition has been fully revised to reflect current methods of accounting education including the incorporation of ethics into the curriculum the analysis of a company s quality of earnings and sustainable income the use of the internet as a source of information the international dimensions of accounting and more Designed for undergraduate and graduate accounting majors the text aligns with the latest curriculum changes in the CPA exam
