

Cassandra Syndrome

- Cassandra – someone who warns of impending disaster. Mythical Trojan prophetess given the gift of prophesy but cursed that no one would ever believe her.
- 'Cassandra dilemma' - one can see the most likely outcome of current trends and can warn people about what is happening, but the vast majority can not, or will not respond, and later if catastrophe occurs, they may even blame you, as if your prediction set the disaster in motion.

The Post-Racial Limits of Memorialization Alfred Frankowski, 2015-11-09 The Post Racial Limits of Memorialization Toward a Political Sense of Mourning attempts to show how post racial discourse in general and post racial memory specifically operates as a context through which the memorialization of anti black violence and the production of new forms of this violence are connected Alfred Frankowski argues that aside from being symbolically meaningful the post racial context requires that memorialization of anti black violence in the past produces memory as a type of forgetting By challenging many of tenants of the critical turn in political philosophy and aesthetics he argues against a politics of reconciliation and for a political sense of mourning that amplifies the universality of violence embedded in our contemporary sensibility He argues for a sense of mourning that requires that we deepen our understanding of how remembrance and resistance to oppression remain linked and necessitates a fluid and active reconfiguration relative to the context in which this oppression exists
