*The Culturalization of Caste in India* Balmurli Natrajan,2011-07-20 In India caste groups ensure their durability in an era of multiculturalism by officially representing caste as cultural difference or ethnicity rather than as unequal descent based relations Challenging dominant social theories of caste this book addresses questions of how caste survives the system that gave rise to it and adapts to new demands of capitalism and democracy Based on original fieldwork the book shows how the terrain of culture captured by a new grammar of caste revitalizes castes as cultural communities so that the culture of a caste is produced organized and naturalized in the process of transforming jati fetishized blood and kinship into samaj fetishized culture Castes are shown to not be homogenous cultural wholes but sites of hegemony where class gender and hierarchy over determine the meanings and materiality of caste Arguing that there exists a new casteism in India akin to a new racism in the USA built less on biology and descent and more on purported cultural differences and their rights to exist the book presents an extended critique and a search for an alternative view of caste and anti casteist politics It is of interest to students and scholars of South Asian culture and society

**A Social History of Early India** Brajadulal Chattopadhyaya, 2009 Contributed seminar papers [Samakalin Bharatiya Samaj \(Contemporary Indian Society\) \(In Bengali\)](#) Ganguly & Moinuddin, Ganguly Ramanuj, MOINUDDIN SYED ABDUL HAFIZ, **Transaction and Hierarchy** Harald Tambs-Lyche, 2017-08-09 In this volume the author challenges a number of widely held cultural stereotypes about India Caste is not as old as Indian civilization itself and current changes are no more radical than in the past for caste has evolved throughout its history It is not a colonial invention nor does it result from weak state control There is no single form of Indian kingship and power relations fundamental as they are for understanding Indian society Nor do Indian villages conform to a single type and caste is as much urban as rural Only in a regional local perspective can we view it as a system Caste does offer space for the individual though in a particular Indian mould and Hinduism does not provide for an integration of castes through ritual In short social organization varies widely in India and cannot provide the key to the specificity of caste This must be sought in the way society is imagined the models of society current in Indian thought Of course as mentioned above there is no single model Brahmins kings and merchants among others have all produced alternative models with themselves at the centre vying for hegemony while facing contesting models held by subalterns Still a hierarchical mode of thought is hegemonic and largely explains why Indians see their social stratification differently from people in the West The volume will be indispensable for scholars of South Asian Sociology and Culture
