**Cather Studies** Susan J. Rosowski,1990 **Cather Studies, Volume 13** Cather Studies,2021-07 Willa Cather wrote about the places she knew including Nebraska New Mexico New York and Virginia Often forgotten among these essential locations has been Pittsburgh During the ten years Pittsburgh was her home 1896-1906 Cather worked as an editor journalist teacher and freelance writer She mixed with all sorts of people and formed friendships both ephemeral and lasting She published extensively and not just profiles and reviews but also a collection of poetry *April Twilights* and more than thirty short stories including several collected in *The Troll Garden* that are now considered masterpieces *A Death in the Desert* *The Sculptor's Funeral* *A Wagner Matinee* and *Paul's Case* During extended working vacations through 1916 she finished four novels in Pittsburgh Cather Studies Volume 13 explores the myriad ways that these crucial years in Pittsburgh shaped Cather's writing career and the artistic professional and personal connections she made there With contributions from fourteen well known Cather scholars this collection of essays recognizes the importance Pittsburgh played in Cather's life and work and deepens our appreciation of how her art examines and elucidates the human experience *Cather Studies, Volume 7* Cather Studies,2007-11-01 Volume 7 of the Cather Studies series explores Willa Cather's iconic status and its problems within popular and literary culture Not only are Cather's own life and work subject to enshrinement but as a writer she herself often returned to the motifs of canonization and to the complex relationship between the onlooker and the idealized object Through textual study of her published novels and her behind the scenes campaign and publicity writing in service of her novels the reader comes to understand the extent to which despite her legendary claims and commitment to privacy Willa Cather helped to orchestrate her own iconic status *American Houses: Literary Spaces of Resistance and Desire* ,2022-08-15 Already in 1854 Henry David Thoreau had declared in *Walden* that Most men appear never to have considered what a house is 225 Like Thoreau many other renowned American writers have considered what houses are and particularly what houses do and they have created fictional dwellings that function not only as settings but as actual central characters in their works The volume is specifically concerned with the structure the organization and the objects inside houses and argues that the space defined by rooms and their contents influences the consciousness the imaginations and the experiences of the humans who inhabit them Winner of the Spanish Association for American Studies Javier Coy Award 2022 for best edited volume Contributors are Cristina Alsina R squez Rodrigo Andr s Vicent Cucarella Ramon Arturo Corujo Mar Gallego Ian Green Michael Jonik Wyn Kelley Cynthia Lytle Carme Manuel Paula Mart n Salv n Elena Ortells Eva Puyuelo Ure a Dolores Resano
