

# Ballet Terms

## Arabesque

An arabesque is a position in which the dancer stands on one leg and extends the other leg and behind them. The body should be held forward so that there is a clear line from the head to the toe of the extended leg. The arms can be held in different positions.

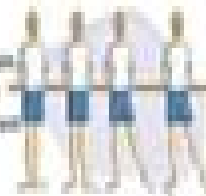

## Pirouette

This is a full turn made on one foot and is usually executed en pointe (on the tips of the toes) or en demi-pointe (on the ball of the foot).

## Batterie

A batterie is an extension of a leg to the front, back or side. Often this movement is repeated in a set of subsequent moves.

## Effleché

This is a position in which the dancer stands on one leg and the other leg is lifted and is bent at the knee, either to the front, to the side or to the back.

## Plié

A plié is a movement involving the bending of the knees with the feet turned outwards. A grand plié features a greater and deeper bend, whereas a demi plié involves less of a bend.

## Jeté

A jeté is a movement in which the dancer leaps from one foot and lands on the other foot.

## Pointe

A pointe is the horizontal footfall, usually smaller, which ballerinas hold over in their dances or solos. Dancers hold onto the barre for support, and most ballet classes feature a sequence of these exercises.

## Turnout

The aspect of ballet posture and technique involves rotating the hip at the top in order to move the feet to turn outwards.

## Pas

A pas is held in a step or series of steps.
