Balthazar,2013-07-05 Opera has been around ever since the late 16th century and it is still going strong in the sense that operas are performed around the world at present and known by infinitely more persons than just those who attend performances On the other hand it has enjoyed periods in the past when more operas were produced to greater acclaim Those periods inevitably have pride of place in this Historical Dictionary of Opera as do exceptional singers and others who combine to fashion the opera whether or not they appear on stage But this volume looks even further afield considering the cities which were and still are opera centers literary works which were turned into librettos and types of pieces and genres While some of the former can be found on the web or in other sources most of the latter cannot and it is impossible to have the whole picture without them Indeed this book has an amazingly broad scope The dictionary section with about 340 entries covers the topics mentioned above but obviously focuses most on composers not just the likes of Mozart Verdi and Wagner but others who are scarcely remembered but made notable contributions Of course there are the divas but others singers as well and some of the most familiar operas Don Giovanni Tosca and more Technical terms also abound and reference to different genres from antimasque to zarzuela Since opera has been around so long the chronology is rather lengthy since it has a lot of ground to cover and the introduction sets the scene for the rest This book should not be an end but rather a beginning so it has a substantial bibliography for readers seeking more specific or specialized works It is an excellent access point for readers interested in opera The Concise Oxford Dictionary of Opera John Warrack,Ewan West,1996-03-07 Derived from the full Oxford Dictionary of Opera this is the most authoritative and up to date dictionary of opera available in paperback Fully revised for this new edition with over 3 500 entries it is designed to be accessible to all those who enjoy opera whether at the opera house or on record Composers and
