Dictionary Du Surrealisme:

Historical Dictionary of Surrealism Keith Aspley, 2010-10-16 Surrealism was a broad movement which attracted many adherents. It was organized and quite strictly disciplined at least until the death of its leader Andr Breton in 1966. As a consequence its membership was in a constant state of flux, persons were constantly being admitted and excluded and often the latter continued to regard themselves as Surrealists. The wide ranging nature of the Surrealist movement was spread over many countries and many different art forms including painting, sculpture, cinema, photography, music, theater, and literature, most notably poetry. The Historical Dictionary of Surrealism relates the history of this movement through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries on persons, circles, and groups who participated in the movement, a global entry on some of the journals and reviews they produced, and a sampling of major works of art, cinema, and literature.

Historical Dictionary of Surrealism Will Atkin, 2021-12-10 The Surrealist Movement is an international intellectual movement that has led a sustained questioning of the basis of human experience under twentieth and twenty-first century modernity since its founding in the early 1920s. Influenced by the psychoanalytical teachings of Sigmund Freud, Surrealism emerged among the generation that had witnessed the insanity and horror of the First World War and was conceived of as a framework for investigating the little-understood phenomena of dreams and the unconscious. In these territories, the surrealists recognized an alternative axis of human experience that did not align with the rational, workaday rhythms of modern life and which instead revealed the extent to which individual subjectivity had been constrained by post-Enlightenment rationalism and by the economic forces governing the post-industrial world. Against these trends, the Surrealist Movement has sought to re-evaluate the foundations of modern society and reassert the primacy of the imagination for almost a century to date. This book offers focused introductions to numerous writers, poets, artists, filmmakers, precursors, groups, movements, events, concepts, cultures, nations, and publications connected to Surrealism, providing orientation for students and casual readers alike.

"Appropriated Photographs in French Surrealist Periodicals, 1924-1939" Linda Steer, 2017-07-05 The first monograph to analyze the Surrealist gesture of photographic appropriation this study examines found photographs in three French Surrealist reviews published in the 1920s and 1930s *La R lution surr iste* edited by Andr reton *Documents* edited by Georges Bataille and Minotaure edited by Breton and others The book asks general questions about the production and deployment of meaning through

photographs but addresses more specifically the construction of a Surrealist practice of photography through the gesture of borrowing and re contextualization and reveals something crucial both about Surrealist strategies and about the way photographs operate The book is structured around four case studies including scientific photographs of an hysteric in Charcot s clinic at the Salp i hospital positioned as poetry rather than pathology and one of the first crime scene photographs depicting Jack the Ripper s last victim radically transformed into a work of art Linda Steer traces the trajectory of the found photographs from their first location to their location in a Surrealist periodical Her study shows that the act of removal and re framing highlights the instability and mutability of photographic meaning an instability and mutability that has consequences for our understanding both of photography and of Surrealism in the 1920s and 1930s
