With tweets flooding Twitter news feeds and posts cluttering Facebook feeds it's harder than ever to reach followers on platforms. However, 85% of YouTube subscribers consider themselves regular YouTube users. It's recommended that if you do pursue creating a YouTube channel that you have a professional team of producers and creators as the content uploaded should maintain a high standard. However, a lot of big YouTubers have started with just their mobile phone and a personality. Now video content and a strong YouTube presence can be significantly harder to establish than say Twitter, Facebook, or Instagram. But if video content were right for your brand, it would be well worth the extra step. As YouTube is free to set up and easy, all you need is your Gmail address and you're set. The company makes its massive profits from ads. While they are reserved for those top budget players, YouTube still has certain issues with the ads as they are considered a form of interruption messaging, i.e. not organic content that is so highly favored on other social media platforms. Essentially, the paid ads are disrupting viewers from what they are doing on the site. And with the ease of the Skip Now button, the ads have a high chance of not being viewed if they are not properly targeted. This guide will focus on the following: Features and impact of YouTube, YouTube tools to help you target viewers, Creating great YouTube content, How the YouTube algorithm works, How to get more YouTube subscribers, Making your videos, Bringing in the traffic, Picking a profitable niche and keyword research, SEO, YouTube channel goals you can control, AND MORE.
