During that time I also became interested in all things SEO but never really got to flex my muscles It wasn't until 2016 that I found myself unemployed and wondering what I should do in life After countless resumes failed to get traction in the job market for positions I was interested in a realization hit me that maybe I don't need a company to work for but rather work for myself My wife Kathleen and our pug Olaf were very supportive of the idea So I started a company called <http://HangTenSEO.com> with the goal to help clients out rank their competition Along the way I also started writing articles on SEO best practices which were in many ways teaching moments for me In writing the articles I really had to understand the subjects I was writing about and how to use the techniques to get the best results
