**Blueprint for Immortality** Julian Valderrama,2016-10-31 Science spirituality and timeless laws of success are now being revealed through a trilateral force The laws of the universe are now describing precisely powerful secrets that allow us to get what we want Like the law of gravity affects all mass so do the following principles perpetually govern our lives whether we believe in them or not If the genius of invention were to reveal tomorrow the secret to immortality of eternal beauty and youth for which all humanity is aching the same inexorable agents which prevent a mass from changing suddenly its velocity would likewise resist the force of the new knowledge until time gradually modifies human thought Nikola Tesla Whatever the mind of man can conceive and believe it can achieve Napoleon Hill For truly I say to you if you have faith the size of a mustard grain you will say to this mountain Move from here to there and it will move and nothing will be impossible for you Jesus Christ Matthew 17 20 These timeless principles based on laws of physics are revealing to us why we die and how biological immortality will soon be an absolute reality in our lives

**The Electromagnetic Brain** Shelli Renée Joye,2020-10-27 An exploration of cutting edge theories on the electromagnetic basis of consciousness Details in nontechnical terms 12 credible theories each published by prominent professionals with extensive scientific credentials that describe how electromagnetic fields may be the basis for consciousness Examines practical applications of electromagnetic consciousness theory including the use of contemporary brain stimulation devices to modify and enhance consciousness Explores the work of William K hler Susan Pockett Johnjoe McFadden Rupert Sheldrake Ervin Laszlo William Tiller Harold Saxton Burr Sir Roger Penrose Stuart Hameroff Mari Jibu Kunio Yasue Karl Pribram Alfred North Whitehead and James Clerk Maxwell as well as the author s own theories In this scientific exploration of the origin of consciousness Shelli Ren e Joye Ph D explores 12 credible theories each published by prominent professionals with extensive scientific credentials that describe how electricity in the form of electromagnetic fields is the living consciousness that runs through the brain Each of these theories supports the idea that the electromagnetic field itself is the basis of consciousness and that this source of consciousness peers out into the space time universe through our human sensory systems flowing with awareness throughout the bloodstream and nervous system Following her exploration of electromagnetic consciousness theories Joye then examines practical applications describing how electric fields might be manipulated and controlled to modify and enhance the operation of consciousness in the human brain She explores the use of contemporary brain stimulation devices that offer benefits such as decreased addiction cravings and anxiety reduced depression and chronic pain enhanced mathematical abilities accelerated learning and greater insight during mindfulness meditation Revealing the cutting edge of consciousness studies Joye shows that consciousness is not an isolated function of the individual brain but is connected to the larger electromagnetic field that not only encompasses

the entire physical universe but also is deeply involved in the creation of matter and the material world *Blueprint for Immortality* Julian Valderrama, 2016-12 Science spirituality and timeless laws of success are now being revealed through a trilateral force The laws of the universe are now describing precisely powerful secrets that allow us to get what we want Like the law of gravity affects all mass so do the following principles perpetually govern our lives whether we believe in them or not If the genius of invention were to reveal tomorrow the secret to immortality of eternal beauty and youth for which all humanity is aching the same inexorable agents which prevent a mass from changing suddenly its velocity would likewise resist the force of the new knowledge until time gradually modifies human thought Nikola Tesla Whatever the mind of man can conceive and believe it can achieve Napoleon Hill For truly I say to you if you have faith the size of a mustard grain you will say to this mountain Move from here to there and it will move and nothing will be impossible for you Jesus Christ Matthew 17:20 These timeless principles based on laws of physics are revealing to us why and how we can have be and do whatsoever we desire *Our Invisible Bodies* Jay Alfred, 2007-02-13 What has plasma and dark matter got to do with your afterlife In 2005 Jay proposed that dark matter which comprises about 85 per cent of the matter in the universe could include self interacting dark plasma Subsequently this proposal received support in the scientific literature This has significant implications not only for the universe as a whole but also planet Earth and its inhabitants In recent years scientists have pointed out to the life like characteristics of plasma How has this life like dark plasma participated in human evolution Does dark plasma provide the physical basis for your afterlife Do we have plasma bodies which co evolved endosymbiotically with our ordinary matter bodies but are currently invisible to us This book explores this in detail while adhering to experimental data with some surprising conclusions Highlighted readers comments I have read several books over the years on this theme of correlating science with spirit They include *The Tao of Physics* and more recently *The Divine Matrix* This masterpiece by Jay Alfred however is one of the best because it explores deeper and more passionately than the others A riveting read and in my opinion this book should be a best seller There s nothing parapsychological paranormal about it we just haven t had the science to explain it until now I ve been reading all three of Jay Alfred s books and so far I ve seriously enjoyed all of them I actually haven t been able to put them down The first few pages are worth the price of this book **Vladislav Alexander Stefan: The FAUSTEF TRILOGY (FAUSTEF: the MASTER GUARDIAN of the CREATION: the 22 SIBLING UNIVERSES)** V.
