the war had fairly got going naturally we thought a good deal about it and it was explained to us by Fortescue that behind the  
theory of Germany licking us or us licking Germany as the case might be there were two great psychical ideas As I was going  
to be a soldier myself the actual fighting interested me most but the psychical ideas were also interesting because Fortescue  
said that often the cause won the battle Therefore it was better to have a good psychical idea behind you like us than a rotten  
one like Germany I always thought the best men and the best ships and the best brains and the most money were simply  
bound to come out top in the long run but Fortescue said that a bad psychical idea behind these things often wrecks the  
whole show And so I asked him if we had got a good psychical idea behind us and he said we had a champion one whereas  
the Germans were trusting to a perfectly deadly psychical idea which was bound to have wrecked them in any case even if
