Coping With Cancer

Jimmie C. Holland, Sheldon Lewis

Coping With Cancer:

Coping with Cancer, 1980 *The Road Back to Health* Neil A. Fiore, 1990 based on the author's own fight against cancer includes a new preface by Howard H Benmjamin PhD founder of The Wellness Community teaches cancer patients how to cope with actively fight against their cancer

Coping with Cancer Stress B.A. Stoll, 2012-12-06 The emotional pressures on cancer patients and their families are increasing and traditional supports are decreasing This book attempts to provide a readable authoritative and balanced review of the emotional pressures and coping methods of cancer patients and the help currently available to them The special problems of children and terminal patients with cancer and the role of the family in coping are also examined A balanced and critical assessment is made of defects in health organisation training of personnel and attitudes to cancer patients in Western society A similar assessment is made of the growing tendency to self help mutual help and group activities for such patients While each individual needs to select coping aids best suited to his or her own temperament medical advisors need to make more time available for discussion of technical emotional social and sexual problems The availability of a cancer treating team makes this feasible Chapters were invited from physicians psychiatrists psychologists and sociologists expert in this field and they have responded to the challenge of writing in non technical language This is so that readership can cross disciplinary boundaries and thus stimulate physicians nurses psychologists sociologists clergy and others to satisfy some of the currently unmet needs of cancer patients The reader may note a small amount of overlap between some chapters permitted in order to maintain continuity and make each chapter complete in itself

Coping with Cancer John E. Packo, 1991 A pastor gives practical advices on handling the pressures when coping with cancer

Coping with Cancer Avery D. Weisman, 1979 Coping with Breast Cancer Sharon L. Manne, Jamie S. Ostroff, 2008-03-14 This couples focused group program aims to improve a couple's functioning as a team and provides a supportive environment for couples facing breast cancer related issues Over the course of six sessions couples learn support and communication skills as well as techniques to manage stress and enhance intimacy Modeling by group leaders and other couples facilitates skill acquisition With continued use the skills learned in group can have long term benefits for couples

Coping with cancer, 1980 The Human Side of Cancer Jimmie C. Holland, Sheldon Lewis, 2009-10-13 For more than twenty years Dr Holland has pioneered the study of psychological problems of cancer patients and their families whom she calls the real experts In *The Human Side of Cancer* she shares what she has learned from all of them about facing this life threatening illness and what truly helps along the cancer journey This book is the next best thing to sitting in Dr Holland's

office and talking with her about the uncertainty and anxiety elicited by this disease And it is a book that inspires hope through stories of the simple courage of ordinary people confronting cancer

Coping with Breast Cancer Sharon L Manne, Jamie S Ostroff, 2008-03-14 As a couple coping with early stage breast cancer it is important that you face the stresses and challenges together To support each other during this difficult time you and your partner may benefit from enhancing your relationship and stress management skills This couples focused group program will help you and your partner become an effective coping team To strengthen your relationship you and your partner will learn how to better support and communicate with one another using proven relationship enhancing techniques You will also learn to strengthen emotional intimacy by taking the time to discover each other s needs and engaging in wish list activities to bring you closer together Relaxation techniques will help you and your partner manage stress so you are better able to deal with the challenges of cancer The group format provides a supportive environment and gives you a chance to learn from other couples dealing with similar issues This workbook is designed to be shared by you and your partner as you work together as a team It includes all the forms and information you will need during the six week program Exercises will help you apply what you learned in group to coping with cancer and your life as a couple By the end of the program you will have acquired many useful skills that will benefit you your partner and your relationship for a lifetime

Treatments That Work™ represents the gold standard of behavioral healthcare interventions All programs have been rigorously tested in clinical trials and are backed by years of research A prestigious scientific advisory board led by series Editor In Chief David H Barlow reviews and evaluates each intervention to ensure that it meets the highest standard of evidence so you can be confident that you are using the most effective treatment available to date Our books are reliable and effective and make it easy for you to provide your clients with the best care available Our corresponding workbooks contain psychoeducational information forms and worksheets and homework assignments to keep clients engaged and motivated A companion website www.oup.com/us/ttw offers downloadable clinical tools and helpful resources Continuing Education CE Credits are now available on select titles in collaboration with PsychoEducational Resources Inc PER

Psychosocial Resource Variables in Cancer Studies Mark R Somerfield, Barbara Curbow, 2014-01-14 Psychosocial Resource Variables in Cancer Studies reviews the literature on selected psychosocial resource variables in cancer in order to raise and examine conceptual and methodological issues and to offer suggestions for future directions in the field It provides investigators and clinicians with a systematic treatment of the state of the art in research on specific resource factors and provides a careful consideration of more generic methodological and statistical issues in this research context Editors Curbow and Somerfield define resources as aspects of a person or environment that are brought to bear on the maintenance or restoration of adaptation under taxing conditions They hope Psychosocial Resource Variables in Cancer Studies is just the beginning of an ongoing discussion within the field of psychosocial oncology on the nature and use of resource variables The book s topics are crucial since researchers appear to

be committed to using resource variables to explain outcomes Also resource variables are increasingly considered as explanatory concepts in quality of life research Psychosocial Resource Variables in Cancer Studies offers critical reviews of the major resource variables investigated in contemporary psychosocial oncology research It provides timely information on vital issues in this research emphasizing studies of the influence of personal and social resources on adaptation to cancer Chapters cover topics such as the use of resource variables in the explanation of individual differences in adaptation to cancer and cancer treatment theories measures and methodological issues in the use of perceived control the use of the transactional model of coping to examine issues surrounding coping and the management of cancer demands religion and spirituality as resources in coping with cancer social support in adaptation to cancer and survival the clinical usefulness of research on psychosocial resources major measures of psychological functioning in psychosocial oncology research statistical and analytical issues in the use of resource variables roles of qualitative and quantitative approaches in exploring resource variables The editors begin with an overview of the oncology field and offer comments on issues that can be generalized to all psychosocial resource variables Next is a presentation of a series of review papers on selected resource variables including perceived control coping religion and spirituality and social support followed by a discussion of the clinical utility of research on these resource variables The book concludes with a discussion of important cross cutting methodological issues including the selection of psychological functioning outcome measures the statistical analysis of resource variables and quantitative versus qualitative approaches Psychosocial Resource Variables in Cancer is a valuable reference and guide for health psychologists clinical health psychologists clinical social workers in oncology medical sociologists medical anthropologists and oncology nurses It may also serve as important reading material for courses in health psychology physiological factors in health and illness personality and diseases and stress and coping

Living with Cancer Vicki A. Jackson, David P. Ryan, Michelle D. Seaton, 2017-05-16 Patients at every stage will find Living with Cancer a comprehensive thoughtful and accessible guide for navigating the illness and its treatment

Coping with Cancer Elizabeth Cohn Stuntz, Marsha M. Linehan, 2021-02-05 This compassionate book presents dialectical behavior therapy DBT a proven psychological intervention that Marsha M Linehan developed specifically for the impossible situations of life and which she and Elizabeth Cohn Stuntz now apply to the unique challenges of cancer for the first time How can you face the fear sadness and anger without being paralyzed by them Is it possible to hold on to hope without being in denial How can you nurture supportive relationships when you have barely enough energy to take care of yourself Learn powerful DBT skills that can help you make difficult treatment decisions manage overwhelming emotions speak up for your needs and tolerate distress The stories and collective wisdom of other cancer patients and survivors illustrate the coping skills and show how you can live meaningfully even during the darkest days
