for Parents of Children with Anxiety

Take care of the basics

Ensure your child gets enough sleep, healthy meals, and daily exercise to better manage anxiety.

Provide empathy

Listen to your child's worries without immediately fixing them. Show understanding and validate their feelings.

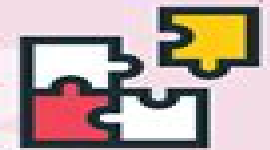

Focus on the positive

Encourage your child to shift attention away from worries and focus on positive aspects of life.

Problem solve

Create a plan with your child to address their fears, helping them feel supported and empowered.

Pay attention to your own behaviour

Model calm and confidence, as children often take cues from how their parents handle stressful situations.
