Marital Infidelity Frank Samuel Caprio, 1953 [The Impact of Marital Infidelity on the Offended Spouse](#) Harmon Meldrim, Harmon Meldrim, Ph.d., 2005-09-02 This book was written as a result of the many painful experiences reported to me by clients while counseling individuals following discovery of their spouse's extramarital affair. The intensity of their pain reminded me of the pain experienced by a parent anticipating the pending death of their child. Since little research has been done in this area, I conducted a qualitative study of Christian women and men who agreed to share their stories. This book tells the stories of 17 men and women whose faith was very significant before, during, and after the discovery of infidelity. Most in the study used positive religious coping, drawing on their faith as their strongest base of support. This study notes differences between men and women in respect to responsibilities for caring for children and post-infidelity adjustment. Women took a great deal longer to resume intimate relationships with men than men took to begin new relationships with women. Sixteen of the 17 participants in the study terminated their marriages after discovering the infidelity. The impact of infidelity was life-changing for all participants who measured their life around what happened before and after the infidelity. This book will be useful to pastors, counselors, social workers, mental health therapists, and marriage and family therapists who provide counseling to individuals struggling with the impact of infidelity. It is also evidence of hope for women and men traumatized by their spouse's infidelity to know that it is possible to get through this very difficult time and to know that they are not suffering alone.

[Trauma, Truth and Reconciliation](#) Nancy Potter, 2006-08-24 People do great wrongs to each other all the time, sometimes deliberately, sometimes accidentally. Many within the fields of mental health are centrally involved in helping people to heal from traumatic events and to come to terms with wrongs done to them by others. However, there is surprisingly little in the way of guidance, few texts that situate healing from trauma or evil-doing within a combined political and philosophical context. This book looks at how people, communities, and nations can address great wrongs and how they can heal from them, taking into consideration how differences in cultures, histories, and group expectations affect the possibilities for healing. The book examines the merits of forgiveness and reconciliation in the context of civic and interpersonal relationships, looking at the role of the law compared to extra-legal and therapeutic approaches to

individual and collective personal and social healing Topics include gendered norms for forgiveness the role of narrative in contrast to a search for truth when conflicts arise and an analysis of the conception of truth that undergirds truth and reconciliation commissions Some chapters also look at how healing can occur when power imbalances exist how to understand and address evil genocide and war Finally the book examines the importance of relational models of human interaction to thinking about trauma and healing and how aboriginal models for healing can contribute to our understanding of trauma and forgiveness Throughout each contributor considers the psychological toll of trauma on both victims and perpetrators of wrongdoing and critically inquires into value systems that enhance or inhibit healing Several authors draw on real life cases to support their arguments and others provide a rich theoretical framework within which readers can think through various approaches and models in a critical manner This highly original and thought provoking collection of articles by authors in psychiatry psychology philosophy and theology is unique in its emphasis on systems of oppression that intersect with anguish and moral uncertainty Canadian Moving Picture Digest ,1926
