Corporate Finance In A Nutshell:

Corporate Finance in a Nutshell Jeffrey J. Haas,2015 Softbound New softbound print book [Handbook of Corporate Finance/Finance in a Nutshell](#) Glen Arnold,Estrada,2006-11-09 The Handbook of Corporate Finance is the authoritative comprehensive companion to the everyday questions of business finance and will ensure you and your business back the right choices Finance in a Nutshell is a portable financial toolkit and solves key problems in easy to read chapters

Finance in a Nutshell Javier Estrada,2005 No other book is a comprehensive toolkit of financial issues instructive and so easy to read all at the same time this is an easy to read guide to the hard to understand stuff of business finance The author regularly gives talks seminars and courses for executives and is very aware of their lack of understanding or their inability to remember simple but key financial concepts and tools He is continually asked to recommend a simple book that helps them to refresh key financial concepts and tools Self contained Other than some elementary algebra no other previous knowledge will be necessary to understand the concepts discussed Comprehensive It will contain most or all topics concepts and tools that executives can easily forget find hard to understand and or would like to know more about Simple and easy to read Many well educated executives have all but forgotten their finance and are regularly put off by books that are far more academic than they need This book will be written in a simple and conversational style Concise with short chapters throughout This is critical as many executives are put off by long books or never ending chapters Essential elementary theory and many real world examples All concepts and tools will be illustrated with catchy and factual examples Excel Spreadsheets have become an inseparable part of working in Finance and this book will show readers how to use Excel to simplify their work Test Yourself problems with worked numerical solutions throughout **Handbook of Behavioral Economics -**

Foundations and Applications 1 ,2018-09-27 Handbook of Behavioral Economics Foundations and Applications presents the concepts and tools of behavioral economics Its authors are all economists who share a belief that the objective of behavioral economics is to enrich rather than to destroy or replace standard economics They provide authoritative perspectives on the value to economic inquiry of insights gained from psychology Specific chapters in this first volume cover reference dependent preferences asset markets household finance corporate finance public economics industrial organization and structural behavioural economics This Handbook provides authoritative summaries by experts in respective subfields regarding where behavioral economics has been what it has so far accomplished and its promise for the future This taking stock is just what Behavioral Economics needs at this stage of its so far successful career Helps academic and non academic economists understand recent rapid changes in theoretical and empirical advances within behavioral economics Designed for economists already convinced of the benefits of behavioral economics and mainstream economists who feel threatened by new developments in behavioral economics Written for those who wish to become quickly acquainted with behavioral economics **Covenants and Third-Party Creditors** Daniela Matri,2017-10-17 This book adds to the debate on

the effects of covenants on third party creditors externalities which have recently become a focus of discussion in the contexts of bankruptcy law corporate law and corporate governance The general thrust of the debate is that negative effects on third party creditors predominate because banks act in their own self interest After systematising the debated potential positive and negative externalities of covenants the book empirically examines these externalities It investigates the banks factual conduct and its effects on third party creditors in Germany and the US The study s most significant outcome is that it disproves the assumption that banks disregard third party creditors interests These findings are then interpreted with the tools of economic analysis particularly with the concept of common pool resources CPRs Around the aggregated value of the debtor company s asset pool as CPR exists an n person prisoner s dilemma between banks and third party creditors No creditor knows when and under what conditions the other creditor will appropriate funds from the debtor company s asset pool This coordination problem is traditionally addressed by means of bankruptcy law and collaterals However the incentive structure that surrounds the bilateral private governance system created by covenants and an event of default clause a CPR private governance system is found to also be capable of tackling this problem Moreover the interaction between the different regulation spheres bankruptcy law collateral and the CPR private governance system has important implications for both the aforementioned discussions as well as the legal treatment of covenants and event of default clauses Covenants alone cannot be seen as an alternative to institutional regulation the complete CPR private governance system and its interaction with institutional regulation must also be taken into consideration In addition their function must first find more acceptance and respect in the legal treatment of covenants and event of default clauses The CPR private governance system fills a gap in the regulation of the tragedy of the commons by bankruptcy law and collateral This has particularly important implications for the German 138 BGB 826 BGB and ad hoc duties to disclose insider information

Current Issues on Digital Transformation, Corporate Entrepreneurship, and Coopetition Anna Ujwary-Gil,2024-01-01 An integrated PLS SEM

model on the interplay of antecedents and moderators driving corporate entrepreneurship activity in South Africa

PURPOSE Corporate entrepreneurship CE is a multi faceted phenomenon and although there is extant research on CE there are knowledge gaps that warrant a deeper understanding Indeed focusing solely on independent variables overlooks the extent to which CE activities are mutually and reciprocally supportive We align our article with research calls for theory building which provides a novel understanding of the dynamic complexity of the CE process

METHODOLOGY In this regard we formulate and empirically evaluate an integrated CE model that reflects the integrative complexity of the antecedents driving CEA The study context is the South African banking sector where primary data n 312 is obtained via a structured survey Four meta hypotheses and several sub hypotheses reflecting the organizational individual and environmental level antecedents are tested using partial least squares structural equation modeling PLS SEM

FINDINGS The main study finding validates that corporate strategy is the bedrock of CEA The results also reveal that entrepreneurial strategy entrepreneurial structure transformational leadership organizational resources and an entrepreneurial mindset are significant predictors of CEA

IMPLICATIONS Practical implications highlight that it is important for managers to consider the configuration of the predictors within the CE model which function as pathways to entrepreneurial corporate strategy

ORIGINALITY AND VALUE Our study makes a unique contribution by developing and testing an integrated and comprehensive model reflecting the dynamic complexity of the antecedents driving CEA It is anticipated that the results will allow researchers to compare and examine comparable antecedents to CEA and their applicability in global country contexts

Keywords corporate entrepreneurship antecedents entrepreneurial strategy organizational resources transformational leadership entrepreneurial mindset partial least squares structural equation modelling PLS SEM South Africa Pushing cooepetition research further Understanding relevance and operationalization of the attributes of cooepetition strategies and cooepetitive relationships

PURPOSE Although cooepetition was defined three decades ago and is intensively investigated its theoretical and research cognition remains far from thoroughly understood The lack of conceptual consistency prevents researchers from conducting comparable research leading to more generalizable results and thus from building coherent knowledge This study addresses the above shortcoming by the development of operationalizations of two types of attributes assigned to cooepetition strategic attributes characterizing cooepetition strategies and relational attributes characterizing cooepetitive relationships

METHODOLOGY In our study we adopted a two step research process consisting of qualitative verification of a list of 8 cooepetition attributes 2 strategic and 6 relational identified in prior literature as relevant for cooepetition success and the development of integrative conceptualization and measurement approaches for them The verification was conducted through focus group interviews with scholars experienced in cooepetition research and senior managers from firms adopting cooepetition strategies The measurement approaches for the positively verified attributes were developed through the integration of 1 approaches used so far in cooepetition literature 2 approaches used to date in the literature on the features of

inter organizational relationships and 3 approaches that emerged during the focus group interviews

FINDINGS This study shows two strategic i.e dynamics and paradoxicality and six relational i.e asymmetry complexity intensity mutual dependence strength and tensions coepetition attributes as heterogeneously relevant for coepetition success and offers multi item operationalizations for them derived from a combination of prior literature and qualitative research

IMPLICATIONS Our paper shows strategic and relational attributes of coepetition as theoretically and practically relevant for coepetition success

ORIGINALITY AND VALUE As a contribution this study offers scientifically grounded operationalizations of eight attributive success factors of coepetition The developed measurement proposals can find valuable applications in two ways First coepetition researchers can use them in their studies and a consistent measurement approach will allow for the comparison of research results bringing us closer to drawing more general conclusions Second coepetition practitioners can use these proposals when managing coepetition for instance to evaluate monitor and intentionally shape them to make coepetition more successful

Keywords coepetition focus group interviews operationalization measurement scale coepetitive relationships coepetition strategies Guiding incumbent companies in navigating digital transformations A qualitative study on structural ambidexterity and strategic leadership

PURPOSE Despite digital transformation being a focus topic for incumbent companies organizational structures are a significant barrier to their success Referring to the positive correlation between ambidexterity and digital innovation our research provides guidance on structural ambidexterity for incumbent companies Previous research has barely differentiated between exploration and exploitation in digital transformation In the present paper we fill part of this research gap by focusing on structural ambidexterity in digital transformations and providing guidance on how incumbent companies can overcome organizational challenges

METHODOLOGY Our research is based on an explorative research design with 33 semi structured interviews that allow in depth information The interview partners were selected using purposive sampling and represented different industry and hierarchy levels All of them have been in a position related to digital transformation in an incumbent company for the last two years We ensure scholarly rigor using thematic analysis to analyze our data

FINDINGS Our decision tree guides separation or integration based on the closeness of digital activities to the core business and the association of the activities to exploration or exploitation Additionally we recommend considering the digital maturity grade in the decision making Developing a cross functional digital transformation strategy and pursuing a balanced portfolio fosters ambidexterity in digital transformation Clear responsibilities collaborative decision making candidate selection and collaboration with IT are essential leadership activities

IMPLICATIONS for theory and practice Our research expands the existing research on digital transformations of incumbent companies We specifically contribute to the limited details on how to separate digital activities considering an exploration exploitation perspective Our study guides practitioners to address one of their major challenges in digital transformations with the help of our decision tree

ORIGINALITY AND VALUE Based on the positive correlation between ambidexterity and

digital innovation our study contributes to the existing research by providing in depth knowledge of structural ambidexterity in digital transformations This detailed information is essential to provide knowledge on enabling the positive correlation between ambidexterity and innovation in the context of structural ambidexterity Keywords digital transformation digitalization organizational structures structural ambidexterity temporal ambidexterity incumbent companies guidelines Leveraging green innovation from big data analytics Examining the role of resource orchestration and green dynamic capabilities PURPOSE The notion of big data analytics BDA has received increased attention from both researchers and managers Keeping in view the significance of BDA the current research aims to examine the role of BDA capability to leverage firm green innovation GI Drawing from the dynamic capability view current study suggests that BDA capability prompts green dynamic capabilities DCs enabling organizations to attain GI successfully Particularly present study proposes that BDA analytics prompt GI directly as well as through green DCs Moreover this study also draws from complementarity perspective and proposes that resource orchestration capability ROC is likely to enhance the effectiveness of green DCs in eliciting GI Thus the objectives of the current study are threefold first it aims to unveil the role of BDA capability in prompting GI second it examines the mediating role of green DCs for the relationship between BDA capability and GI and third this research examines the moderating effect of ROC to examine if it strengthens the effects of green DCs METHODOLOGY This study involves testing hypotheses using primary data collected by using the method of survey questionnaire The data were collected from 291 Pakistani organizations Pakistan is an emerging economy where businesses are responsible for substantial amounts of carbon di oxide and greenhouse gasses GHG emissions Therefore Pakistani organizations serve as a suitable context for the study The respondent organizations were from both the manufacturing and service sectors PLS SEM was employed as an analytical approach for testing the hypotheses Construct validity and reliability were confirmed prior to hypotheses testing FINDINGS Results demonstrate that BDA capability positively affects GI 0 33 p
