David Hamilton Grace

Correspondence 1647 1653 Dutch Colonial Manuscripts:

Correspondence, 1647-1653 Charles T. Gehring,2000-06-01 Volume XI of the Dutch Colonial Manuscripts comprises the correspondence of Petrus Stuyvesant from 1647 to 1653 It represents the first six years of his seventeen year tenure as director general of New Netherland spanning the final years of the war with Spain through the first war with England Stuyvesant became director general of the possessions of the West India Company at a critical time in the history of the United Provinces Major changes were taking place in European affairs The thirty year war in Germany and the eighty year Dutch revolt against Spain were both to be resolved within a year England had overthrown the monarchy and was about to embark on an experiment with republicanism which would have grave implications for the Dutch nation Through this volume of Stuyvesant s letters Charles T Gehring shows how the young Stuyvesant only thirty six years old when he became director handled major problems in his administration Through recovered correspondence from West India Company directors from Amsterdam Gehring shows how Stuyvesant managed to confront the challenges before him His accomplishments were many but he was renowned for the stabilization of the boundary with New England the resolution of the dispute with the patroonship of Rensselaerswijck and the neutralization of Swedish influence in the Delaware

Capitalism and Cartography in the Dutch Golden Age Elizabeth A. Sutton,2015-06-05 In Capitalism and Cartography in the Dutch Golden Age Elizabeth A Sutton explores the fascinating but previously neglected history of corporate cartography during the Dutch Golden Age from ca 1600 to 1650 She examines how maps were used as propaganda tools for the Dutch West India Company in order to encourage the commodification of land and an overall capitalist agenda Building her exploration around the central figure of Claes Jansz Vischer an Amsterdam based publisher closely tied to the Dutch West India Company Sutton shows how printed maps of Dutch Atlantic territories helped rationalize the Dutch Republic s global expansion Maps of land reclamation projects in the Netherlands as well as the Dutch territories of New Netherland now New York and New Holland Dutch Brazil reveal how print media were used both to increase investment and to project a common narrative of national unity Maps of this era showed those boundaries commodities and topographical details that publishers and the Dutch West India Company merchants and governing Dutch elite deemed significant to their agenda In the process Sutton argues they perpetuated and promoted modern state capitalism

Calvinists and Indians in the Northeastern Woodlands Stephen Staggs,2025-10-01 In Calvinists and Indians in the Northeastern Woodlands Stephen T Staggs analyzes the impact of the Dutch Reformation upon the cross cultural relations between those living in and around New Netherland Staggs shows that Native Americans and New Netherlanders hunted smoked ate and drank together shared their faith while traveling in a canoe and slept in each other s bedrooms Such details emerge in documents written by New Netherlanders like Megapolensis Author of the most accurate account of the Kanien keh ka Mohawks by a Dutch Reformed minister Megapolensis provides a window into the influence and limits of the Dutch Reformation upon the dynamic multifaceted

relationships that developed in the early modern Northeastern Woodlands Megapolensis came of age when Dutch Reformed theologians looked to the Bible to incorporate Indians into a Reformed worldview In so doing they characterized Indians as blind Gentiles to whom the Dutch were being called by God to present the gospel through the preaching of the Bible and the Christian conduct of colonists which necessitated social interaction This characterization ultimately informed the instructions given to those heading to New Netherland raised expectations among the clergy and lay chaplains who served in the colony and prefigured the reciprocal intimate relationships that developed between Indians and New Netherlanders during the seventeenth and eighteenth centuries 1 It is based on a variety of original Dutch sources that have been either ignored or underused in terms of Indian Dutch relations This in turn facilitates a more extensive in depth linguistic analysis that presents a new more accurate translation and interpretation of early modern Dutch words most notably the words heidenen and wilden As a result crucial new insights are offered 2 It juxtaposes and analyzes textual visual and material evidence in an interdisciplinary way drawing on the fields of anthropology archaeology art history cartography ethnography history linguistics psychology and theology In so doing it expands our understanding of how Northeast Woodland Indians not only converted Europeans to their way of life but also the crucial role they played in the survival and success of their European neighbors 3 At once a quasi biography historical theology and ethnohistory it offers a narrative that extends beyond the conventional conclusion of the story of Indian Dutch relations with the so called fall of New Amsterdam in 1664 [National Genealogical Society Quarterly](#) National Genealogical Society,2001 [Stuyvesant Bound](#) Donna Merwick,2013-04-29 Stuyvesant Bound is an innovative compelling reassessment of the last Director General of New Netherland Donna Merwick employs a multidisciplinary approach to examine the layers of culture within which Peter Stuyvesant forged his career and performed his identity [The Island at the Center of the World](#) Russell Shorto,2005-04-12 In a riveting groundbreaking narrative Russell Shorto tells the story of New Netherland the Dutch colony which pre dated the Pilgrims and established ideals of tolerance and individual rights that shaped American history UPDATED EDITION WITH A NEW PREFACE AND POSTSCRIPT Astonishing A book that will permanently alter the way we regard our collective past The New York Times When the British wrested New Amsterdam from the Dutch in 1664 the truth about its thriving polyglot society began to disappear into myths about an island purchased for 24 dollars and a cartoonish peg legged governor But the story of the Dutch colony of New Netherland was merely lost not destroyed 12 000 pages of its records recently declared a national treasure are now being translated Russell Shorto draws on this remarkable archive in [The Island at the Center of the World](#) which has been hailed by The New York Times as a book that will permanently alter the way we regard our collective past The Dutch colony pre dated the original thirteen colonies yet it seems strikingly familiar Its capital was cosmopolitan and multi ethnic and its citizens valued free trade individual rights and religious freedom Their champion was a progressive young lawyer named Adriaen van der Donck who emerges in these pages as a forgotten American patriot and whose political

vision brought him into conflict with Peter Stuyvesant the autocratic director of the Dutch colony The struggle between these two strong willed men laid the foundation for New York City and helped shape American culture The Island at the Center of the World uncovers a lost world and offers a surprising new perspective on our own **Constructing Early Modern Empires** ,2007-03-31 The role of proprietorships or private colonies in imperial development has not received the attention it deserves notwithstanding recent scholarly emphasis on state building The continued use of these private devices even as early modern European nation states grew more potent is not only interesting but is indeed normative though invariably missing from modern studies of empire This collection provides in depth analyses of the workings of the proprietorships themselves rather than proprietary colonies and in studies ranging from South Carolina to Nieuw Nederland to French West Africa to Brasil broadens this discussion beyond British North America Contributors include Micka l Augeron Kenneth Banks Sarah Barber Philip Boucher Olivier Caporossi Leslie Choquette David Dewar Jaap Jacobs Maxine N Lurie Debra A Meyers L H Roper James O Neil Spady Bertrand Van Ruymbeke C cile Vidal and Laurent Vidal **Opening Statements** Albert M. Rosenblatt,Julia C. Rosenblatt,2013-07-09 No society can function without laws that set of established practices and expectations that guide the way people get along with one another and relate to ruling authorities Although much has been written about the English roots of American law and jurisprudence little attention has been paid until recently to the legacy left by the Dutch In Opening Statements a broad spectrum of eminent scholars examine the legal heritage that New Netherland bequeathed to New York in the seventeenth century Even after the transfer of the colony to England placed New York under English Common Law rather than Dutch Roman Law the Dutch system of jurisprudence continued to influence evolving American concepts of governance liberty women s rights and religious freedom in ways that still resonate in today s legal culture Opening Statements addresses only a short chapter in the long history of America Its judgments will not be without dispute but then as the eminent Dutch historian Pieter Geyl once wrote History is an argument without end There can be no doubt however as to the value of those seeds of freedom that were deeply planted in New Netherland They produced a revolutionary harvest that causes us to appreciate what the Dutch inspired A small country the Netherlands yes but always a powerful ally for America in the unending struggle for a well ordered society where freedom and justice prevail from the Foreword by William J vanden Heuvel *New York History* New York State Historical Association,2001
