Development of Insurance in Angola Israel Muchena, 2019-04-11 It is widely expected that insurance will develop in Angola and countries rich in natural resources but will it? Israel Muchena follows up the success of his award winning book *Development of Insurance in Mozambique* by seeking to answer that question and many more in this research study. He begins by exploring the history and development of the insurance market of Angola. Get answers to questions such as: What is the current insurance law of Angola? What are the key conditions and criteria for authorisation of an insurance license? What are the key insurance related obligatory reporting requirements for insurers in Angola? The author also explains the role of insurance regulators in Angola, the entities legally allowed to conduct insurance business, what mechanisms exist to protect consumers when there are disputes and more. Filled with insights on key challenges and opportunities related to insurance in Angola, this study highlights how to achieve increased penetration rates while fostering an environment conducive to success.

Development of Insurance in Mozambique Israel Muchena, 2018-03-23 By its nature, insurance is intended to provide financial protection for basic human needs such as shelter, means of self-sustenance and well-being. You would expect that most if not all people would be covered by it in one form or another. Unfortunately, that is not the case for most people in Mozambique and many other low-income countries. In *Development of Insurance in Mozambique*, Israel Muchena answers questions such as: Why are those who need financial protection the most so often left uncovered? What should key stakeholders in the insurance sector be doing to raise awareness and to promote access of people that need financial protection the most? How do emerging concepts such as micro insurance, weather index insurance and digital marketing work? Muchena also examines the history of insurance beginning with its ancient origins among traders in China to written rules in ancient Iranian kingdoms followed by the development of insurance through guilds in Mesopotamia and early markets in Europe. Thereafter, he leads readers up to the present day of how insurance is handled in Africa, including Mozambique.
