The Payout Mafia: How The Top Affiliates Are Still Robbing The Bank In A Post-AI World: The Playbooks, Principles, and Profit Models Behind Affiliate Success James Dooley, Niels Zee, 2025-11-16

The Payout Mafia: How The Top Affiliates Are Still Robbing The Bank In A Post AI World. The old affiliate playbook is dead. The new one prints money. After the Google Helpful Content Update and wave of AI content spam, most affiliates threw in the towel. Traffic collapsed. Profits dried up. Forums turned into graveyards. But while the masses complained, a small crew of sharp operators quietly adapted, evolved, and kept cashing in. The Payout Mafia reveals how.

Co-authored by digital entrepreneurs Niels Zee and James Dooley, this book is a raw, practical breakdown of what's actually working in affiliate marketing in 2025. No fluff. No recycled advice. Just real strategies from 13 elite affiliates still pulling six and seven figures in a post-AI world. You'll learn which traffic channels still print cash and which are dead ends. How to pick red-hot niches with high margins and low competition. Systems to scale from 100 days to 1,000 days without burning out. Why 90% of affiliates fail and what the 10% do differently. How to survive algorithm updates, bans, and platform shifts. Hidden goldmines in B2B, SaaS, iGaming, health, and finance. Conversion techniques that make every click worth more. The step-by-step plan to hit your first 10K in commissions. This isn't theory. It's the proven, up-to-date blueprint being used by the few who kept winning when everyone else quit. If you're tired of SEO sob stories, outdated YouTube advice, or AI-generated garbage, this book is your wake-up call. Affiliate marketing didn't die. Most affiliates just stopped evolving.

A Handbook of Management Theories and Models for Office Environments and Services Rianne Appel-Meulenbroek, Vitalija Danivska, 2021-08-02

Although workplace design and management are gaining more and more attention from modern organizations, workplace research is still very fragmented and spread across multiple disciplines in academia. There are several books on the market related to workplaces, facility management (FM), and corporate real estate management (CREM) disciplines, but few open up a theoretical and practical discussion across multiple theories from different disciplines. Therefore, workplace researchers are not aware of all the angles from which workplace management and effects of workplace design on employees has been or could be studied. A lot of knowledge is lost between disciplines, and sadly, many insights do not reach workplace managers in practice. Therefore, this new book series is started by associate professor Rianne Appel Meulenbroek, Eindhoven University of Technology, the Netherlands, and postdoc researcher Vitalija Danivska, Aalto University, Finland, as editors, published by Routledge. It is titled *Transdisciplinary Workplace Research and Management* because it bundles important research insights from different disciplinary fields and shows its relevance for both academic workplace research and workplace management in practice. The books will address the complexity of the transdisciplinary angle necessary to solve ongoing workplace-related issues in practice, such as knowledge worker productivity, office use, and

more strategic management In addition the editors work towards further collaboration and integration of the necessary disciplines for further development of the workplace field in research and in practice This book series is relevant for workplace experts both in academia and industry This second book in the series focuses on the role of workplace management in the organization and the tasks that workplace management needs to consider The 18 theories that are presented in this book and applied to workplace research discuss management aspects from the organization s perspective or dive deeper into issues related to people and or building management They all emphasize that workplace management is a complex matter that requires more strategic attention in order to add value for various stakeholders The final chapter of the book describes a first step towards integrating the presented theories into an interdisciplinary framework for developing a grand workplace management theory
