Defence Under Thatcher:

Science Policy Under Thatcher Jon Agar, 2019-06-03 Margaret Thatcher was prime minister from 1979 to 1990 during which time her Conservative administration transformed the political landscape of Britain Science Policy under Thatcher is the first book to examine systematically the interplay of science and government under her leadership Thatcher was a working scientist before she became a professional politician and she maintained a close watch on science matters as prime minister Scientific knowledge and advice were important to many urgent issues of the 1980s from late Cold War questions of defence to emerging environmental problems such as acid rain and climate change Drawing on newly released primary sources Jon Agar explores how Thatcher worked with and occasionally against the structures of scientific advice as the scientific aspects of such issues were balanced or conflicted with other demands and values To what extent for example was the freedom of the individual scientist to choose research projects balanced against the desire to secure more commercial applications What was Thatcher's stance towards European scientific collaboration and commitments How did cuts in public expenditure affect the publicly funded research and teaching of universities In weaving together numerous topics including AIDS and bioethics the nuclear industry and strategic defence Agar adds to the picture we have of Thatcher and her radically Conservative agenda and argues that the science policy devised under her leadership not least in relation to industrial strategy had a prolonged influence on the culture of British science

The Royal Navy in the Cold War Years, 1966-1990 Edward Hampshire, 2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy's role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990-91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike

Dorman,2002-03-07 Drawing upon a wide range of interviews with many of the key actors Andrew Dorman examines how defence policy was formulated and implemented during the premiership of Margaret Thatcher This period witnessed major transformations in international and domestic politics with defence emerging from its traditional postwar position of relative insignificance to become one of the key issues at the 1983 and 1987 general elections Dorman provides a new understanding of policymaking by analysing defence policy in terms of three constituent parts declaratory policy military strategy and procurement policy *Nostalgic Virility as a Cause of War* Matthieu Grandpierron,2024-03-12 Why do great powers go to war Why are non violent diplomatic options not prioritized Nostalgic Virility as a Cause of War argues that world leaders react to status decline by going to war guided by a nostalgic virile understanding of what it means to be powerful This nostalgic virility a system of subjective beliefs about power bravery strength morality and health acts as a filter through which leaders articulate glorified interpretations of history and assess their power and their country s status on the international stage In this rigorous study of France the United Kingdom and the United States Matthieu Grandpierron tests the theory of nostalgic virility against the two more common theoretical frameworks of realism and the diversionary theory of war Consulting thousands of newly declassified government documents at the highest levels of decision making Grandpierron examines three specific cases the early years of the Indochina War 1945 47 the British reconquest of the Falklands in 1982 and the US invasion of Grenada in 1983 convincingly contending that status seeking behaviour and nostalgic virility are more relevant in explaining why a leader chooses war and conflict over non violent diplomatic options than the dominant frameworks Looking to the recent past Nostalgic Virility as a Cause of War considers how this new model can be applied to current conflicts from the Russian war in Ukraine to Chinese actions in the South China Sea and provides surprising ways of thinking about the relationship between power decision makers and causes of war Massachusetts Soldiers and Sailors of the Revolutionary War Massachusetts.
